

# INTRODUCTION

Attached is a **WHISTLEBLOWER DOCUMENT** that was first handwritten, but I am now typing it for better consumption. I will be placing my signature at the bottom of each page for verification that I am in fact still the Author of this Document. This "Briefing Document" has been prepared for both the House and the Senate. Due to the fact that the majority of this Document contains subject matter that is **CLASSIFIED** at a very specific **ABOVE TOPSECRET** Clearance listed within, this Document runs risk of being heavily reacted or with-held from the Public altogether. However, since the Public has also been convinced that ACTUAL HISTORICAL events are "laughable" when it comes to this subject, I'm really not sure WHAT the reaction would be concerning the release of this Whistleblower Doc to the Citizens of the United States of America. So, I have chosen to remove that unknown, and release the EXACT Document that is being sent to U.S. Lawmakers myself.

Due to reasons explained within, I don't have access to certain software/hardware. So, there are some typos. I went through and corrected a few but, please bare with me. The words and information FAR outweigh any typing errors, I assure you. I believe words are powerful, and I made sure that every word in this Document has meaning. It is crucial that this Document be read in order, without skipping ahead or "skimming". Each page is written seriously. This Whistleblower Doc is being released to the media and the Public domain to ensure transparency. I can no longer sit by KNOWING what I KNOW, and I explain why more in depth within this Doc. If you start to read this with your minds already made, then you are only doing yourself and your fellow American Citizens a dis-service. To make a preconceived opinion-based determination without adequate basis of information to start with; than that is the definition of being prejudice. All I ask is; PLEASE don't act in a prejudice manner, and put your "walls" down. I, not only, disclosed TRUE information, I explained EXACTLY how to verify it using United States Lawmaker's Authority, AND offered a REAL solution, in the form of a Proposal for Lawmakers to vote on. All you have to do is: take it serious. I understand that this Document has no "tone of voice", so certain words have been underlined, and/or written in all CAPS, or "**bold**" for emphasis. This WHISTLEBLOWER DOCUMENT holds the Key to a much better world for us ALL. Will you unlock that door, or leave it secured shut? THAT'S the question...

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

**MEMORANDUM**

**ATTENTION:** Members Of Both Chambers Of Legislature

**On Behalf Of:** We The People Of The United States Of America

**Subject:** The Truth

Before we get started, first allow me to apologize for the crudeness of this communication. I don't currently have access to a more "fitting" type of transcribing, however, the seriousness of which my words are received should not be altered or diminished as a result. I cannot stress to you enough how crucial the information is that I am about to **RELEASE** and **CONFIRM** within this **WHISTLEBLOWER DOCUMENT**. I have self-assigned a Document number to this Document for current and future use. That will assist with the cataloging of this Document into the National Archives. That DOC number is: **021F947T012**, and will be affixed at the top of each subsequent page within this Document. Most of the information contained within is considered to be extremely sensitive in nature and **CLASSIFIED ABOVE TOPSECRET** at the highest level within the United States Government; An "Umbrella Clearance" known as; **TOPSECRET:CODEWORD** or just **T/S:CW** for short. Most of you have likely never even HEARD of this clearance, and if any of you have actually ever received it, I would be surprised. If you have, it would have been minimal exposure because **NONE** of your stations or names were ever mentioned in **ANY** Classified Files or illegal "Briefings" I received between January 2003 and September 2012. After weighing out the consequences I will likely face for Authoring and distributing this information, I've decided to forego those concerns and put my fellow American Citizens before myself and well-being. I have sat back and watched as we all live a lie and that includes you... This is not a Bi-Partisan issue, this is a **BEYOND PARTISAN** issue. **I** am also Beyond Partisan. I am not a Democrat, Republican, or Independent. I am truly Beyond Partisan, a so this information and everything connected with it. Following the body of this briefing, I will expand upon who I am, the specific circumstances I currently face, and my Proposal concerning this truth.

In 2021 you easily passed a Bi-Partisan bill that contained a sub-section commanding the Director of National Intelligence to reveal **ALL** information the United States Intelligence Community had concerning **UFO/UAP** activity up to that point and whether or not the U.S. Government was aware of who/what these "objects" were. Unfortunately, your command was to release an **UNCLASSIFIED** report. A lot of the American People have **NO IDEA** that **Un**classified means: Any and All information on a

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

subject that **NEVER WAS** Classified secret in the first place. It's different from **DECLASSIFIED**. **DE**classified means: Any and All information on a subject up to THAT point in time it was kept SECRET and required specific Security Clearances to view. So, since most of YOU knew those differences already, you KNEW that by not amending the "UNCLASSIFIED" clause to "DECLASSIFIED", that you were **NOT** truly commanding them to release anything at all to the American Public, other than what they said; "We can't rule it out." Now there WAS a classified version of the same report that a lot of you got to see, BUT even that didn't tell the truth of what is REALLY going on, or OUR (The U.S. Govt.) involvement level, because even that report wasn't Classified at **T/S: CW** or **T/S: CW-MEO**.

Before I brief you, I will inform you that I have sent Exact copies of this Whistleblower Document to all major Media outlets and published this online to ensure transparency. It is extremely important that you take all I say seriously. Every single syllable of what I am about to tell you is unequivocally true! This is NOT guess work or opinion. This is what I KNOW to be FACTS. Facts I have known for years. I've been able to review unlawfully copied Classified Documents that required this clearance to view and received illegal/Unlawful (non-cleared) briefings of equivocal clearance. It's not so much as; whether or not Extraterrestrials exist, as it is; how the United States has involved it 'self, AND what we REALLY have as a result. I will have to rely on YOU to distribute exact copies of this to ALL your fellow Lawmakers and remember; the Media/Public already have copies so any lack of security clearances is now a moot argument. Understand also that when I read op-eds, books, or watch "documentaries" on this subject; my observation is always different from everyone else's. While others watch and read to be entertained or hope to gain information, those like me who know all the FACTS already watch and read to see what they got right and/or what they did not. Some happen to get more right than others, but most are completely ridiculous. Usually, the ones who have more accurate information do so because of either them or another source of information they used already being the product of a purposeful release of true information by our Govt./Military by way of a program designed to desensitize the American Public, and therefore the rest of the world, to the existence of extraterrestrial life spread out across the universe. This is known as the "Public Acclimation Program" and it's a program that was the result of information about one specific Project being leaked to a Hollywood Director without permission. (I will explain who and what in more detail later in this Document) After that, seeing what he had done with it, the Public Acclimation Program was mandated. For decades you have been force-fed fictionalized versions of the truth via; T.V., Movies, Books etc. Some will be a story that has absolutely nothing to do with anything true, with included little "easter eggs" of what would equate to "inside jokes" to be shared later. Some portray real events as part of a completely fake story. Others will portray something as the polar opposite of how it really is, but include a fictional "true north" as its counterpart in the film or show. They do all this so they are telling you, without telling you, so you're ready when they actually

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

tell you. Then like I said; a select few platforms have been chosen to tell SOME of the truth blatantly, by those approved to do so, as part of the program, but buried in all of the mis/dis-information on purpose. Then once those released facts are finally confirmed as part of the disclosure process, you will be told what to go back and read, or what websites to go visit, to fill in SOME of the minute details. Unfortunately, even the "disclosure" process is not planned to be 100% honest or transparent and is only being used as a tool for a very dangerous plan to "bring the world together", however I do not feel comfortable revealing those details at this time.

Most of what I tell you, will already be able to be found in its own corner of the internet with multiple different accounts, and has been for a while, but if you don't know what you are looking for, then you never knew to search for it, nor paid any attention to it when you encountered it. Of course, it's a lot easier when you have the "cheat sheet" of all the correct answers already. When there are 10 or 20 different accounts of the same story or event, it's impossible to know which is the one true set of facts and which are fiction, but now you don't have to, because I'm doing it for you, using my "cheat sheet" knowledge to do so...

What I'm about to brief you on is the 100% actual and factual account of what I have chosen to disclose, and approx... 30% of the collective information I actually am privy to. Anything too frivolous that will just make this longer than necessary I will leave out, but could always answer later in front of a House Oversight Comm. If I don't know something, I will just say "I don't know", and continue on. I don't waste time and energy talking about things I don't know. PERIOD. I WILL NOT be including my knowledge of facts to do with pre-May 1947 history, or the pre-history on/of this planet at this time. I WILL NOT be including the totality of post-May 1947 history to do with this subject at this time for reasons explained within this Document. I WILL NOT divulge ANY Classified weaponry, defenses, and/or stealth capabilities the United States may have as a result of this information, as those particular technologies SHOULD remain Classified as they represent the capability to keep, WE THE PEOPLE safe and free American Citizens. So, with that being said, let's go ahead and "rip the band aid off" ...

The United States of America has had an ongoing relationship with multiple Extraterrestrial species since the 1940's and 1950's, However I will be focusing on the relationship with our biggest "allies" of them all. One specific species since July of 1947. The one event that everyone pokes fun at was a REAL event. ROSWELL. What even "UFO Enthusiasts" don't widely know is; not one, but TWO craft went down that night. One southwest of Corona NM, and one near Datil NM. According to the reports, the Corona site is what's known as the "Roswell crash" site, and the other one near Datil is another that some people think was a separate crash occurring in 1949. That's only because the other craft wasn't discovered for almost two years later until two ranchers accidentally found it in the middle of isolated terrain, resting on its "roof". It wasn't clearly documented what process they went through to alert the Govt. but the crash site was

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

secured by the U.S. Army. The first crash site (Roswell) in 1947 also contained five dead Extraterrestrials and one live extraterrestrial. The debris and deceased were transported to Roswell Army Air Field, while the one that survived was transferred to Los Alamos National Laboratories where a special "containment" area was set up for him. (Yes, it was a male). Eventually, between Dallas/Fort Worth and Nevada, all the debris was taken to Wright Patterson or "Wright Field" as it was known then, and handled by the Army's Air Force's "Foreign Technology Division" in Dayton OH. The five dead were also taken there and put into a "deep freeze" state, until a few years later when a special liquid was used to stave off decomp. at Los Alamos, that's when they were sent there. (as well as the Nevada Test Site) The second crash site contained four dead extraterrestrials, already badly decomposed, which were taken with the craft to Sandia Army Base in Albuquerque NM. The intact disk was then shipped to Dayton OH. until "site 4" (S-4) was built at the NTS to house crashed intact craft. The species we encountered in those crashes were NOT the evil overlords with tentacles portrayed in "Independence Day" back in the mid-90s, but in fact a benevolent species of bi-pedal Hominoid, with an average height of about 4FT or so, with slender limbs. Their skin is a little rough, with a pinkish gray pigmentation. However, NOT to be confused with what people refer to as "The Grays". That's something completely different. They have eyes, but with two sets of eyelids layered for protection purposes, due to their main planet of origin having two suns. (Binary system) The black eyelid is a protective lens. The eyeball underneath is white like ours, but with very large pupils. They have a small nose, but their breathing and respiratory systems are different. They have ears, but they are set a little lower than we would expect. They have blood, but it's not red. Their internal organs are different, and their brain is structured differently. But they are people just like we are people. They are not "creatures", they are "beings". Their normal verbal communication with each other sounds like musical "tones" to us and their written language is VERY complex and is made up of over 350 symbols and characters. Their main planet of origin is approx. 38.42 lightyears from Earth and when pronounced in English sounds like "SERPO". It is part of the Zeta 2 Reticulum star system, and is the fourth planet out from the sun. The "two suns" is more complex and I don't have exact specs on that detail. One is revolved around, while another is close enough to be seen in the skies of Serpo and provide more sunlight. The reports were unclear as to the location of the second star, but from what I understand; it's not Zeta 1, and therefore Must be a smaller and different type of star mainstream astronomy has yet to chart close to Zeta 2. Now that our astronomers know where to look (cheat sheet), they will be able to figure that part out for you. There was one report of a DIA interview I read the transcripts of where an inhabitant of planet Serpo was being interviewed and gave the description of: "Both stars being within 100 million Earth miles of Planet Serpo" when at their closet points. I also know that this species has populated and civilized multiple planets within the Zeta 1- and 2-star systems, as well as two planets located in two separate star systems within the Cygnus Arm. One; the 5<sup>th</sup> planet revolving a sun approx. the same size as our own, and another being the 4<sup>th</sup> planet

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

out within a solar system containing 11 planets. There are three main types of intelligent Gray beings located in the Zeta 1 and 2 star systems. The species that crashed at Roswell are under the classification by our Govt. as: E.T.E.-2 Type C-1. Those classifications have humble beginnings and started in 1947 following Roswell. In 1947 the US Army and Intelligence services assigned a classification to this species. We knew from autopsies performed on the deceased in Fort Worth TX that they were different biologically yet still biological like Humans. We knew they were not from terrestrial Earth, therefore were Extraterrestrial. So, since our Govt. and Military love their acronyms, they classified this species as E.B.E.'s, which means; "Extraterrestrial Biological Entity". The lone survivor in 1947 was simply called EBE (in some Intelligence circles they called him "Noah" due to him being the lone survivor) Eventually we built a relationship with this species and when referring to him in the past tense via files, he then became EBE-1. The more we encountered there was EBE-2 and so forth and so on. Verbally the word "number" would be said when referring to them before stating their identifying number, and eventually became a letter added onto the end as a suffix now spelling EBEN, which resulted into us affectionally calling this species "The Ebens". When technically; ALL non-cloned Extraterrestrials that are biological entities, are Ebens by definition. However, as I said, we started to interact with different species from different star systems and a new classification system was developed to identify the star system in which they came from and that classification is: E.T.E. which means simply: "Extraterrestrial Entity". Then if there were multiple intelligent species within that star system; "type" would be assigned to identify that species. As I stated; the species from Roswell was designated first by star system, and order of first contact, as ETE-2 and then their "type" is Type C-1.

Ok, now let me take you back to when we had EBE-1 in our custody at Los Alamos. At first a form of sign language had to be used to establish a communication. Starting off simply pointing at something, signing what it was and so on. This worked in a basic way until our military doctors were confident, they knew enough about EBE-1's biological makeup due to the autopsies performed on the others, that they could perform a surgery that would allow EBE-1's "acoustical cords" to produce "voice" also, instead of only "tone". They were able to successfully complete this surgery but still had to teach English from scratch. This species has the ability to learn language quickly and English was no different. EBE-1 was able to Learn English surprisingly fast. One specific Army Major became EBE-1's guardian, so to speak, and they built a solid friendship. Many things were learned from EBE-1 as a result of this friendship. He eventually confirmed the second crash site that was recovered in 1949 as being part of his "crew". He showed us how certain things in his "scout craft" worked, as well as larger "vessels", and their ability to travel though "deep space". The entire time EBE-1 was in our custody he was housed at Los Alamos and Sandia base. He showed us his/their "communications device" retrieved from the Roswell crash site. It had three parts, but during the crash, one of the parts was broken. Our scientists found some Earth made items circa 1947 that EBE-1 was

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

able to use to rig a repair of that part of the device. This device is actually where our first civilian version of text messaging originated from. For those who remember, back in the late 90's and early 2000's, in order to type a text, you had to press down the same number multiple times to circulate through the three letters attached to that number. That is how this device was. A screen and a keyboard with multiple symbols and characters for each key to house the massive written language of their civilization. Our original text message tech was "seeded" into the tech industry by our military/Intelligence and distributed for civilian use. Reverse engineering results from the Roswell crash, that quite honestly could have been given to us decades earlier than it was. Now, EBE-1 was doing this with what was at the time foreign symbols on a keypad and screen we didn't quite understand yet, so we had to "trust" that he was being transparent with that Army Major who believed him. He sent a message letting his home planet know he was alive and the others had died. He sent another giving an explanation as to how the two crashes happened. He requested a transport of some type, another suggesting his leaders and our leaders meet, and another also suggesting our two Governments participate in some type of "exchange program". There were military Generals that noted their objections to just allowing EBE-1 to send out messages that could result in some type of invasion, but ultimately the files dictate that the correct call was made to trust that Army Major's judgement. While not receiving any responses that we knew of, EBE-1 continued to show us and teach us things. We learned that their "propulsion systems" used to travel around the planet and back and forth from space, were NOT propulsion systems at all. Instead, they were actually "REpulsion" systems. This is how it works:

An engine within the craft is powered by an element heavier than plutonium, but still nuclear in nature. This engine is designed to create an artificial electromagnetic field of an opposing polarity. Then that of the natural electromagnetic field of planets and space that help create gravitational pull and gravity it 'self. By having the opposing polarity, the artificial field then REPELS against the natural field. The controls of the craft determine the range, depth, and volume of the repulsion output. The result could be anything from a stationary hover, to full speed ahead, and anything in between. The artificial field creates a "bubble like" gravity field around the craft, displacing all other gravity, and fields it comes in contact with. As a bi-product of creating this "gravity bubble" you have now created your own artificial gravity INSIDE the craft, independent from the gravity OUTSIDE the craft. If you were to fly upside down, you would still be pulled down to your seat at the desired gravity set by the controls, and wouldn't even know you were upside down unless you were the pilot who just did it or you were to look outside. THAT'S how these craft are able to perform a 90 degree turn at ridiculous speeds without turning the occupants to mush inside, and how they can rise up so quickly, or shoot off to space so suddenly. THAT'S how these craft can enter our atmosphere (electromagnetic field) without creating friction and heat/fire. THAT'S how these craft are able to go to the deepest depths of our oceans without being affected by the pressure of the water (gravity). I laugh when I see these so-called

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

“experts” and “insiders” say that it “couldn’t be human pilots inside these UFO’s/UAP’s because no human could withstand the G-forces generated by the way these craft move.” What makes them just assume that an Extraterrestrial could? NONE of us can, but the TRUTH is; none of us HAVE to because we ELIMINATE G-forces as well as the need for fuel and emissions. Another thing we learned from EBE-1 was, when translated to English, what they call “Time tunnels”. We call them “Wormholes”. To all the astrophysicists out there; you no longer have to call that a “theoretical” set of physics. It’s ABSOLUTELY true. I’m going to explain to you how they work and the reason why you can’t see them with ANY telescope. We learned that these time tunnels or wormholes are not technologically made. They are naturally formed and form when galaxies form and besides the movement of the galaxy it ‘self, they are stationary in their locations. The trick to accessing these tunnels is the same and ONLY way to SEE them as well. Speed. Avery specific speed. What is documented in the classified reports is what is referred to as the “Optimum Speed”. This is approx. 98%-99% the speed of light, but NOT faster than the speed of light. Since telescopic lenses are stationary or are only moving at best; rocket speed, then the telescope will NEVER be able to capture sight of one of these tunnels. The “Anti-Gravity” Repulsion Technology I just explained in this document is nowhere near enough power to reach these speeds. We learned that it is actually three separate forms of movement and technologies that must be used together to reach and maintain this optimum speed. We learned from EBE-1 that you must pair the Repulsion Technology with what’s known as “anti-matter Propulsion” and is described in the reports as “Charged Dark Matter”. This is achieved with relatively the same type of element powering a differently designed engine that produces a different chemical reaction to the same element makeup. The third technology creates a type of vacuum at the front of the craft. This is a technology that is used to power never ending energy of limitless supply that I will describe further into this document, but that same rare element is paired with other elements AND the charged dark matter to energize a separate engine that creates this vacuum at the front of the craft. This technology is listed in the files as “Particle Vacuum Enhanced Energy”. When used all together and regulated through the craft’s controls, speed can be regulated. When used, it works together to reach the Optimum Speed like this: The particle vacuum enhanced energy “pulls” the vessel through space as the Charged Dark Matter propels you, and the Anti-Gravity Repels you all at the same time, and the entire time you have your own artificial gravity and feel no movement inside. These types of craft are usually much larger and are listed as “Starships”. A scout craft is simply too small to accommodate that many engines. There are larger ships known as “Shuttle Craft” that could be outfitted with this technology, but usually these ships are so large that they have both shuttle craft and scout craft in their “hangar” level. The species from Roswell was able to travel in their Starship from planet Serpo to the entrance of the tunnel closet to them, through the tunnel, out the exit point into our star system, and to our planet in approx. 9½ Earth months’ worth of time. 38.42 Lightyears in 9 and a half months with never reaching speeds faster than just under the

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

speed of light! And we can travel all over the universe like that, from tunnel to tunnel, star system to star system, and galaxy to galaxy. Absolutely amazing technology, using the TRUE Laws of physics. And YES, the United States has these capabilities RIGHT NOW and have been using them since the late 1980s. This is NOT experimental technology we are still figuring out. None of the technology I am revealing to you is experimental AT ALL, but I am getting ahead of myself. Let me take you back to 1952. That is the year that EBE-1 passed away... One of the most important individuals in the history of the United States, and you didn't even know he existed. That's a shame. Following his death we attempted several messages using his device, but received no response. For about six months we tried this. Now it was spring of 1953. I will get back to the communication device, but at that time, our scientists were given the task of taking everything they had been taught by EBE-1, as well as everything they learned by studying their technology, to improve the device for our contact attempts. However, on May 20<sup>th</sup> 1953 we recovered a downed craft outside of Kingman Arizona in the Cerbat Mountains. This craft was of simpler design and larger than the one that crashed at Roswell. Approx. 90FT in diameter. The craft was a working craft and was not "crashed" but just "downed". This craft had four live Extraterrestrials on board, and two were slightly injured from the hard landing. Our recovery team known as the "Blue Team" were dispatched immediately from nearby. The Blue Team did not know they were being monitored from another craft high up in altitude. This downed craft malfunctioned due to the updated radar equipment recently installed in that "four corners" area of the country. This craft was NOT piloted by the Ebens, but instead by another species with grayish pigmentation (also NOT The Grays) we refer to as ETE-1 Type A. We began a very limited relationship with ETE-1 after recovering three 3-seater craft that went down near the Plains of Saint Augustin NM on May 31<sup>st</sup> 1947. I will not go into a whole lot of specifics about this species at this time other than just revealing to you that this species originates from the Rigal star system, with an average height of 3-5FT tall. They have large tear shaped eyes covered with a protective black lens. The eye underneath has vertical pupils, and most have four fingers and three toes. Some have a larger head with a slightly raised "bump" on the top of their skull, some don't. Some have a squared jaw and others "pointy". Some have sharp angles instead of curves on their faces and some don't. One type has circular pupils with egg shaped eyes. One has five fingers and toes and is slightly brownish in pigment. All their variations depend on the "type" classification. There are at least four types I was briefed on. I will also reveal to you that the Declassified FBI document that details that an "informant" told the FBI that three Alien spacecraft crashed in the New Mexico desert in 1947, they were ACTUALLY referring to that Plains of St. Augustin incident, NOT Rowell like many have speculated. This species worships technology and had planned to "present" this craft to our military at the NTS where the base at Groom Lake was being constructed (before the actual purchase agreement for that land was listed), but malfunctioned, forcing an emergency landing in Arizona. It was loaded onto a military tank trailer used for hauling Sherman tanks at the

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

time by a crane. It was too wide to be driven across the Hoover Dam so was instead barged across the Colorado River and then driven by escort up route 93 to the NTS where reverse engineering was started right away with the help of the occupants. This original reverse engineering project of our first Fully Operational, Intact Flying Disk was called: "PROJECT GALLALAO" and started officially in summer of 1953. The first thing that was built was what was known as "Flying Disk Simulators". They were fully electric and powered by six capacitors of one million volts EACH. That still only allowed for about a half hour of "fly time" and low altitudes. The company "A Link Aviation" was involved in these simulator developments, but following Roswell the Air Force was ordered to become its own branch of the military independent of the Army, and therefore assumed control of Wright Field Army Air Base, renaming it Wright Patterson Air Force Base later. By doing that, the base's Foreign Technology Division was now the "Air Force Foreign Technology Division", and did most of the work, as well as, the recruiting for Project Gallalao. The first flying disk simulator wasn't fully operational until 1958. Then it wasn't until 1962 that the program was really up and running regularly with better simulator craft, as well as, the Kingman craft being flown by human pilots on a regular basis. Some of the people selected to work on these craft and in that project continued to for decades, turning the corner to Real Craft being produced regularly. "Project Redlight" was the related project of test flying produced simulators, recovered craft, and eventually A.R.V.'s. That is the official Govt. designation given to actual craft we build. It stands for "Alien Reproduction Vehicle". One of the main scientists who worked on the research and development of all variations of craft was named; Edward Teller. Throughout my briefings to do with reverse engineering technologies from Extraterrestrial civilizations and transcripts of ETE interviews, Edward Teller's name came up quite frequently. I will reveal to you that throughout the mid to late 1960's and up to the late 70's/early 80's He worked with one MAIN ETE assistant, specific to these related projects, to help out, or explain, when needed or called upon. He did not appear to be a regular ETE-1 or ETE-2, and was most likely one of ETE-2's C.B.E.'s. That is our designation for a "Cloned Biological Entity". It's unclear in the reports I have seen, but knowing how advanced in genetics ETE-2 were at the time, and knowing they were later known to have already been responsible for creating entirely new versions of species for certain purposes, and knowing their appearances, it is more likely than not that he was one of their CBE's bred with vocal cords and taught English before being presented to us in the mid 1960's. By ALL accounts though; his English nickname was "J-ROD", and that's what everyone called him. The only other species J-Rod could possibly be is what is known as an "Essessani" which are "decended" from ETE-2 in a way I don't feel comfortable describing at this time. Point is; Either way, ETE-2 would be responsible for his being an assistant to Edward Teller. The, now deceased, Captain Bill Uhouse actually mentions him in an interview he gave on camera for Dr. Steven Greer's "The Disclosure Project". Not every single detail of what Captain Uhouse thought he knew about J-Rod is correct, however he was being 100% truthful in his recounting. During one of my briefings, I was

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

shown what's known as a "MJ-12 Special Operations Manual" or "SOM" for short. I have read close to 100 of these, numbering from 1-01 to an exact number designation I can't even recall. However, I just call these by their internal designation; "MJ-12 Staff Documents". The one Staff Document in particular I am currently referring to was concerning the reverse engineering and test flying of the Kingman AZ craft. In this Staff Document, I read transcripts of Captain Bill Uhouse's interview, and at the time I read it, I had assumed it was typed transcripts from an audio interview, not even knowing it was video and too young at the time to even care. I found out about 3-4 years ago when reading a publication to see if there was anything true in its pages. That's where I found out it was video. In this publication I viewed the **EXACT SAME** transcripts and was able to authenticate them. However, that's when I realized it was actually a video. The transcripts still listed Dr. Steven Greer, but mentioned the video interview done in October of 2000 for his Disclosure Project. Since then, I have seen excerpts of this video and know it's authenticity due to its content matching official transcripts within the pages of MJ-12 Staff Documents. For reasons explained later in this document; I don't currently have the means to just go watch whatever video that I desire at the moment. The publication I ran across in it listed the exact domain as:

[www.youtube.com/watch?v=VzGYNJEA4Ag&feature=youtu.be](http://www.youtube.com/watch?v=VzGYNJEA4Ag&feature=youtu.be) if it's no longer viewable on Youtube than just go find Dr. Steven Greer's "The Disclosure Project", he is listed by name. His identity can be verified by his surviving family, if they so choose, and I can authenticate EVERY WORD concerning the reverse engineering to be true. Our repulsion craft was started with electric simulators, went to actual craft, then was perfected by the late 1980's, and we have been adding to our "FLEET" ever since the early 1990's, while still working on more advanced models and incorporating deep space propulsions since the early to mid-1990's like the **USS Solar Warden** (one First built in 1980's), **USS Hillenkoetter**, **USS Vandenberg** Etc. "USS" stands for "United States Starship". Many "private" Corporations the Military has Classified "interests" in, the company only has approx. 1-2% even knowing what is going on. These ventures are funded through "Black Budgets" within the Defense spending known as "U.S.A.P's", which stands for "Unacknowledged Special Access Programs". These USAP's are almost always connected to this subject in one way or another but hidden behind "anti-terrorisms" and "National Security", but not EVERY SINGLE one. The one's concerning the Defense contracts to assist in building OUR Starships and Scout/Shuttle craft are usually split between; "Boeing Phantom works" and "Lockhead Martin Skunkworks" (spelling may need corrected) However, there are other lesser-known ones involved like; "Ford Aerospace", "Martin Marietta Enterprizes", "Teledyne Ryan Aeronautical Incorporated", "McDowell Douglas" & "E.G & G", just to name a few... Almost the ENTIRE company's staff have no idea that this is even going on and a lot of the time will be instructed to build things they THINK are "cutting edge" technologically, not even knowing it's actually archaic, and only used to deflect eyes from what is TRULY going on. I know this to be FACTS. Some of these companies have been

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

involved since Roswell and some more came in during Project Gallalao in its early days during the 1950's, however, most came on board during the Nixon Administration. The reason for that was the REAL reason why the "FOIA" was created in the beginning, not why you think it was. The Freedom of Information Act was a way for our military and Intelligence services to use "private" companies to work on this subject because FOIA requests can't be done on private companies, only the Govt. with the exception of; you guessed it, USAP's. This decision was NOT made by President Nixon. This decision was made by "U.S. Space Counter Intelligence" which is headquartered at Cheyenne Mountain Base in Colorado Springs. It's not just starships we build/have built, we also have Scout craft and Shuttle craft of various design, shape, and size. Approx. 60% or so of UFO sightings dating back to the early 1960's has been our OWN craft with our OWN pilots and that is a FACT. Obviously, that means that approx. 40% or so have NOT been though... There is A LOT more to all that, but let me take you back to 1955. After 18 months of our scientists working to improve the late EBE-1's communication device, we sent two messages. This time we received a response. The next chain of events deserves all the "little" details, so for that I will refer to my notes. I have been briefed on and got to read a large portion of classified transcripts of a series of Presidential Briefings given to President Ronald Reagan conducted at Camp David over seven days. The first from March 6<sup>th</sup> to March 8<sup>th</sup> of 1981, and the second from October 9<sup>th</sup> to October 12<sup>th</sup> 1981. These briefings were audio recorded on purpose for the future release and disclosure of this information and are one of the only Presidential Briefings on this subject to ever be recorded. I was able to read a lot of these transcripts in January 2003 and again in October of 2003. The briefings were recorded on 54 audio cassette tapes. They were (and still are) being held by the DIA, or Defense Intelligence Agency and were SUPPOSED to be Declassified to the American Public in 2007 by the Dept. Of Defense. They were only "released" in excerpts and in a way that the only people that would take them seriously were the people that already subscribe to this subject. I IMPLORE you to get these tapes. Anybody who knew President Reagan will be able to verify his voice on those tapes. The CIA director at the time "William Casey" was present as well. A Female Stenographer employed by the CIA who had T/S: CW-MEO clearance was there, The Secretary Of Defense, and two Staffers were there as well. After the beginning of the briefing, the Sec. Of Def. as well as one of the staffers were instructed to leave, while the other three remained with President Reagan. This does NOT include the person giving the briefing. The person doing that is known as one of the "Caretakers" of this information for the U.S. Govt. He is part of a classified division within the CIA known as: "Group-6". They "care for" all the information on this subject. These briefings were part of the N.S.D.D. (National Security Decision Directives) that are incorporated into the overall "Action Directives" concerning this subject. And again, MY information came a different route, however I located some of the "released" excerpts, that I can authenticate, in a publication. I will now paraphrase the events concerning the messages, briefed to then President Ronald Reagan by the "Caretaker", March of 1981: In 1955 we had received

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

our first reply and were able to translate about 30% of the message. We turned to several different language specialists from several different Universities and even some foreign Universities. (We told them a mix of it being a drill/test and it being an intercepted communist transmission that was coded we needed to break) We were finally able to translate most of the messages. We decided to reply in English and see if they could decipher our language faster than and easier than we could theirs. Four months later we received a reply in broken English. Sentences contained nouns and adjectives, but no verbs and took us several months to translate. We then sent them our typed up English lessons, in a series of one sheet formats. By the way, I want to describe to you the **EXACT** words that were told to President Reagan when describing the device, we were using to communicate. This was described like this in 1981 and referring to a time in the 1950's. Check it out:

“Without getting into the technical description of the Eben communication device, it was like a television screen and a keypad, but the pad contained several different Eben characters depending on the number of times you held down one key. We were able to transpose our English typed words into the second part of the device, which was similar to our facsimile transmissions system. It took our scientists some time to perfect this, but it worked.” ...

Any of you want to guess what that would equate to later in American society? Every single one of us use Human versions of Alien technologies every day. Six months after sending the language lessons, we received another reply. This time it was clearer, but not clear enough. They were confusing several different words and still failed to complete a proper sentence. EBE-1 was able to learn verbally in person. We were attempting to teach English through “Interstellar Texting” essentially. But, over the following five years of back and forth we were able to somewhat perfect our understanding of their language, and they better understood ours as well. However, dates, times, and coordinates were harder due to us not having prior working knowledge of how they measured time and distance. We tried to send pictures but got back what would equate to question marks. Eventually we were able to break that barrier as well and understand the basics of each other's sense of time and distance, but just barely enough. Then we received a message telling us they wanted to meet with Earth, which for us meant “meet with the United States Govt.”, and retrieve their spaceman's bodies. (10 altogether) But the date they chose was over eight years in the future, so we thought maybe they made a mistake in calculating the meeting time, so after some more messaging back and forth, a closer date was set. April 24<sup>th</sup> 1964. By this time, it was now March of 1962. President John F. Kennedy approved the meet as well as the proposed “Exchange Program”. The location for the meet was decided to be Holoman Air Force Base located at the “White Sands Missile Range”. President JFK's new Intelligence agency he and his Secretary Of Defense Robert McNamara developed in 1961 called the DIA would run the operation. The Air Force's “Special Operations Command” was

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

tasked with the recruitment and training of those ultimately selected to participate. The planning of the mission itself went to none other than "The Majestic Twelve Group" also known as MJ-12. MJ-12 was constructed by President Truman in 1947 following Roswell, to oversee EVERYTHING to do with this subject, answering **ONLY** to the Office Of The President Of The United States. Following Roswell President Truman was the one who ultimately ordered General Ramey to construct the lie about a weather balloon and order Major Jesse Marcell to hold up foil and weather balloon material for the media in Fort Worth TX following Roswell. It was actually President Truman who decided to hide all this from the Public. In order to do so he had to create a way to make it legal to do so. So, within weeks of Roswell, President Truman created the "National Security Act" which allowed him to lie straight to your face in the "Interest of National Security". He created the "National Security Council" to enforce it without oversight. He created the "Central Intelligence Agency" to investigate and monitor it. Then he was able to give a Classified Executive Order for the formation of a "group" of 12 men from Military, Intelligence, and Science to be the decision makers of it ALL without having to answer to ANYONE but HIM. The Order to form this Classified Group was listed "officially" as a National Security Council's "Special Studies Program". The Order was Order "54-12". By the time President Dwight D. Eisenhower took office in 1953, MJ-12 had grown in power and influence. They were the top of the Military and Intelligence circles. President Eisenhower was an Army General becoming President, he was briefed on the existence of MJ-12, but they had refused to allow him access to their Base Of Operations, **OR** keep him in the loop with their decisions. Being a freshly retired Army General, he still had respect in some other powerful Military Circles and dispatched a Special Forces Unit Representative to their sub-terranean facilities to DEMAND access. MJ-12 blinked and gave an Eisenhower representative full access to their Base. He witnessed live ETE interrogations and saw a Craft that had been recovered, as well as other things. Upon reporting this back to the President, Eisenhower was very interested in the future actions of MJ-12. They were supposed to be answering to him anyway as he saw it. That's when MJ-12 brought in more and more "private" contractors, and turned it into an "industry" using certain technologies that Eisenhower himself brokered deals on in 1954/1955 with ETE-1. This then allowed MJ-12 to increase their power and influence. By 1961 when Eisenhower was leaving office, he referred to MJ-12 and its private contractors overseeing the Extraterrestrial subject as the "**MILITARY INDUSTRIAL COMPLEX**". Once JFK took office and he was briefed on MJ-12's existence and influence, he instructed his Defense Secretary to create a rival Intelligence Agency to that of the CIA that would also be protected by the National Security Act. The DIA was born October 1<sup>st</sup> 1961. Now with President Kennedy having footing within the Department Of Defense, he tried to assert authority back over MJ-12. He wanted to know what they were doing, when they were doing it, and why. That's why he was brought into the Exchange Program to approve it in the first place, and how he was able to have the DIA run "point" on the project. The Exchange Program is titled "**PROJECT CRYSTAL KNIGHT**", by

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

the DIA, but referred to as "**PROJECT SERPO**" by the Air Force and the CIA. The selection and training were intense and plans were made and changed multiple times. Those selected had to be unmarried, have no kids, and listed as "career members" of the Military. Depending which agency's paperwork you read, it differs on whether or not two women were initially selected with ten men, but ultimately it was 12 men that were selected. During the recruitment and selection process, the prospects were not told they were being selected to leave Earth with an alien race to go live on another Planet in exchange for ETE's. They were told a cover story about a secret moon mission. Once they were detained at Leavenworth Military Prison when they were not training under heavy guard at multiple bases all over the country, depending on the exact discipline. (Test flying towards the end of training without guard), Then they were told. When April 24<sup>th</sup> 1964 arrived, our twelve selected and trained Military personnel were transported via Military bus. On the concrete beside them were the 45 tons worth of supplies they were to take with them, waiting for the "Visitor's" arrival. Soon we received word that the first of two-shuttle craft had misjudged their entry and landed about 100 miles North of Whitesands near Socorro NM. We sent course corrections to them and that was relayed to the other ship so it didn't happen with both. The first vessel that landed, then took back off, flying South to Holoman AFB, but not before being spotted by a cop named "Lonnie Zamorah" (forgive my spelling) Lonnie witnessed the landed ship and even some of the occupants actually existing the craft, before getting back in and flying South out of view. This became known as the "Socorro Incident" or UFO sighting for Socorro New Mexico on April 24<sup>th</sup> 1964. Some even believe that it's "more credible" than the Roswell incident, but have no idea what so ever that the Socorro incident would never have even happened if it wasn't FOR Roswell. Exact same species and civilization FROM Roswell, on their first diplomatic meeting with our Government SINCE Roswell, to retrieve their dead FROM Roswell! So, to all those researchers who wanted to know what REALLY happened that day in Socorro and what Lonnie TRULY saw AND why? There you go... The Air Force even back dated "Classified" Documents saying they were "testing" a Lunar Rover on that exact date, at that exact location, and at that exact time. That way if anyone ever dug "deep enough", THAT'S what they would find, and believe they had "debunked" the Socorro sighting. And since the White Sands Missile Range WAS developing the Lunar Rover at that time in 1964, it made for the perfect scapegoat and cover story.

Back to April 24<sup>th</sup> 1964 at Holoman AFB. Once both shuttle craft arrived, the meeting took place. There were video cameras (movie quality for time period) set up to document the entire thing from four separate vantage points. Three from the ground at various locations and one from the air being filmed from a hovering helicopter. President Johnson, who continued the approval of the Exchange Program, was not present according to all the Classified files I have seen detailing this meeting. It was also explained to me that President Johnson was skeptical that such a thing was even going to happen and was briefed on the bare minimum as of that date. Our "Greeting Party"

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

consisted of certain members of MJ-12 including their leader known as "MJ-1", and other Military/Intelligence leaders/Personnel, as well as, some of our scientists and linguists. Altogether, our greeting party totaled 16 people. There was a canopy in place for the Ebens to walk under once they exited their craft to meet our representatives. The canopy did not obstruct the view from the helicopter, nor the ground. At any given time, a camera was filming this interaction. The Eben official in charge presented MJ-1 with two gifts that day. One was a "Translator Device". A microphone looking piece of equipment with a metal like material spiraling down half of it, with a digital readout on the front of it. When we spoke into it, the digital readout would then spell it out in Eben & English. This connected wirelessly to an identical device the Ebens held. When they "spoke" their native "tones" into it, it would then display what was said in both languages, on both devices. A wireless communications device that connected like a Bluetooth, but in 1964... Any of you want to guess all we developed and then seeded into our tech industry reverse engineering this equipment? That paired with what was brought back in 1978, shaped pretty much everything we currently use on a daily basis. I'll get to that. The second gift was known simply as "The Yellow Book" due to its boarder being yellow in color. It's not really a book. It's a translucent type of material, about two and a half inches thick. You don't actually "read" it like a book. You hold it up to your eyes and it displays a hologram type of display of images and words, specific to whatever the language is that the "reader" is thinking in. Depending on how it's held with your fingers, it gives either the history of their civilization and planet, or our civilization and planet. The images are REAL images from the past. There is also information about the universe and their "interactions" with "our" planet, starting about 2000 years ago. Absolutely amazing technology. The catch is, you never get to finish it. Once you put it down and pick it back up to start again, it restarts and plays in order from the beginning all over again. Basically, it doesn't keep you "logged in".

The exchange was actually postponed that day because the Ebens were not prepared to do all that at once. There was some sort of miscommunication when discussing the actual exchange. During the meeting it was decided by both parties to reschedule the exchange and so April 24<sup>th</sup> 1964 turned out to only be for establishing a relationship with each other, letting them retrieve their deceased personnel's bodies, and presenting us with those two gifts. The exchange was postponed, but not indefinitely. A new date was chosen. It was decided by both parties that the Eben shuttle craft would return to their Starship that was docked in close proximity to Earth, and then await/outfit a larger shuttle craft to arrive from Serpo before they return to retrieve our team and their supplies. The new date was set for July 16<sup>th</sup> 1965, roughly 14 and a half months from that day. There was also a new proposed site to conduct the exchange. The new location would be near Groom Lake (known by the public as Area-51) on the Nevada Test Site; North, North west of Nellis AFB. On the day of July 16<sup>th</sup> 1965, a much larger shuttle craft landed at the NTS where our crew of 12 men again waited on a bus next to their 45 tons worth of supplies. With the diplomatic pleasantries attended to last visit, this one

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

was all business. The 45 tons of supplies were loaded all onto the "ground level" of the three-level ship. Our Team was then led to the second level of the craft where they were seated onto small bench seats with no types of seatbelts. The third level was where the Eben crew and pilots were located. Our Team of 12 was exchanged for only one ETE. It was not clearly documented why this was what was agreed upon, but what was documented was the fact we were given express permission to study and conduct tests on this ETE. It was a male and according to the reports he looked slightly different than the other Ebens we had encountered, and there was great interest in this being. Now, once the team's shuttle craft arrived at the Starship, it "docked" inside the hanger area of the Starship. Once docked, the team departed the craft and watched as all 45 tons of supplies were "floated" off the shuttlecraft. It wasn't actually floated; the supplies were sitting on an anti-gravity repulsion platform which repelled against the ship's gravity to render the platform weightless and therefore everything on it weightless as well. It was placed on the hanger's deck and the Team was led to another part of this absolutely MASSIVE vessel. (I will explain in more detail how I know the first-hand accounts of the Team's experiences) The Team member's identities were "Sheep Dipped" and were listed as dying in "Training Exercises" and other ways that never happened. Even in the Classified Documents, Their Identities were simply replaced with three-digit numbers. These are their three-digit identities in chronological order: 102-Team Commander, 203-Assistant Team Commander, 225-Team Pilot 1, 308-Team Pilot 2, 420-Linguist 1, 475-Linguist 2, 518-Biologist, 633-Scientist 1, 661-Scientist 2, 700-Doctor 1, 754-Doctor 2, 899-Security. I have no idea who these brave men were before their recruitment, but if anyone had a loved one that was recruited for a Classified mission between March of 1962 and Summer of 1963 and ended up "dying" or going "missing" while training for this mission, there is a good chance that he was actually one of the Team members for Project Crystal Knight/Serpo. All I know about their three-digit numbers is that those are the numbers from the recruitment process where the Air Force evaluated close to 1000 candidates for this mission and those were the numbers in the order, they were recruited for the chance to be part of this mission. For the mission itself; it was SUPPOSED to be a 10-year mission, but due to their planet's 40 "hour" days and slightly longer orbital "years", it turned out to be; 13 years, one month, and two days before returning, with approx. 19 months of that spent traveling through space and wormholes. For the most accurate account of the time spent on their planet, I will refer you to the "**FINAL REPORT**". The Final Report is the DIA Report. Its Report number is: **80HQD893-20** and is held within the subterranean sections of the DIA HQ located at Bowling AFB on Macdill Blvd in Washington DC. It was finalized in 1980 following the return of those who made it back on August 18<sup>th</sup> 1978. However, the Team continued their debriefing process by the Airforce, CIA, NRO and others, dictated by MJ-12, up through 1984 at various locations. To be clear; only seven Team members returned. One died on the voyage to Serpo from a pulmonary embolism suffered while inside the wormhole and not staying in his "containment" area. (We have since developed counter-measures to prevent

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

those types of adverse effects from happening) Two more died while on their planet. One from a fall and another from natural causes. Two decided to remain on planet Serpo and were not ordered to return. Seven returned. The Final Report by the DIA is approx. 3000 pages long, and has had thousands of attached pages of typed up transcripts from audio cassette "diaries" that were recorded by all the Team members while on planet Serpo. 102 started writing his journal at first, then switched to the audio soon after arriving on the planet, but still kept written notes. They took a total of 6000 blank cassette tapes of 90 minutes a piece with them within their supplies. They filled 5419 of them. These were, at the time, state of the art cassettes that weren't even released for civilian use for a few more years after that. As United States Lawmakers, **YOU** have the Authority to **COMMAND** the release of these tapes! You could even issue the release of the transcripts, **FULLY UNREDACTED**, to the Public. You just never knew they existed in order for them to be any command in the 1<sup>st</sup> place. Now you do. If you just "demand to know if the tapes exist", then under the National Security Act, you will be lied to no matter what you think. **ANYTHING** I relate to you about the Team's experiences after leaving the NTS and while on planet Serpo, is straight from their **OWN** mouths and accounts in respect to how it was/is there, the weather/climate, wildlife, what they experienced, and the technologies and knowledge they brought back to us. You can fact check **EVERYTHING** I've told you so far, and everything I'm about to tell you (concerning this project) by obtaining this Final Report and attached pages, as well the audio diaries. You can fact check **WAY** more by also obtaining the 54 Reagan Briefing tapes. If you so much as doubt **ONE WORD**, or are skeptical of **ANYTHING** I've said, then I have provided you with ways to utilize your authority to fact check me. You can even hook me to a polygraph machine to ask if I have seen Classified Documents that reveal the truth about ETE's and the USA's involvements with said ETE's. Just don't ask me about my source or anything about the illegal briefings their self. If my mentor is still alive, I will not risk his exposure any more than I already have. Truth be told though we have "lie detector" equipment at black sites like the NTS and others that make polygraph machines look like a child's Lego set. But a polygraph would be sufficient, as long as they didn't know they were being selected for the test and no one had access to their equipment prior.

Now, while on Serpo, Team Commander 102 witnessed the Eben's genetic technology. The Team member that passed away on the trip to Serpo, his body was taken and genetically mutated, and using his DNA, cross bread into an entirely new creature/being. 102 was already upset with not being given the body of his Team member in the first place, so when he demanded to see what they had done with it, he was led to their genetics "area" where he witnessed this species' genetic abilities first hand. 102 was forever changed by what he saw that day. Following that confrontation, our Team's Eben hosts in that Colony better understood our customs, empathy, and grieving process following a death. They showed us that respect moving forward. The Eben's were not as

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

socially advanced as Earth based Humans at that time, but were much more advanced technology and spiritually than we were. That's just the truth of it.

The genetic advancements were shared with and taught to the USA following the Team's return in 1978. By the 1990's, you were shown a seeded civilian version in the form of "Dolly The Sheep" being cloned. I can **ASSURE** you that our genetic advancements **NOW** are beyond ANYTHING you can imagine in a good Hollywood script. That's Facts... Since the early to mid-1990's we have had the ability to cure "incurable" diseases/viruses, refurbish lost hair growth, "print" **NEW** organs from scratch matching the patient's DNA so it will "take" every time, and even grow lost skin/limbs within days-weeks... This is not a game. Just like every other technology I have revealed to you in this honest **WHISLEBLOWER DOCUMENT**, I will explain HOW this technology works to the best of my ability. Here it is: It's not so much about putting anything in or taking anything out of the body, **MOST** of the time. It's about isolating the specific DNA sequence attributed to the issue you need to correct. Then you use what would roughly equate to radio waves to "speak" to that isolated DNA sequence, then you link that frequency to the sequence and instruct the DNA to Demand the brain to Command the body. The "dormant" DNA that has the ability to heal the body, has now been used to get the body to heal it 'self in ways that the majority of the scientific community will say is impossible. They're wrong. To regrow lost limbs, you pair that "Frequency Process" with submerging the "nub" in a basin/contained environment, that is filled with liquid similar to what is inside a human mother's womb. This will instruct your body to regrow your lost limb **FROM** your existing nub in an expeditious time frame. That's just one of our DNA sequences and abilities. Our DNA has **MANY MORE** capabilities, but I do not feel comfortable releasing that information at this time.

We had many technological advancements brought back to MJ-12 for application consideration by MJ-12 in 1978. One of the things the team brought back was the energy device they plugged all their equipment into while there. Once our scientists reviewed this, they realized we already had a similar device we recovered from the Roswell crash. EBE-1 died unexpectedly, and prior to, getting to that piece of the wreckage, so we never knew what it was between 1947 and 1978. For 31 years we didn't know it was an energy source by it 'self. The only thing we knew about it was in the mid 1950's we found that it helped us view some of the recovered "star charts" once we placed the star charts into their proper "reader" within the control panel that wasn't destroyed. We found out after 1978 that the whole time this little rectangle piece of plexi-glass looking device was the power source that powered that entire ship besides the engine! Now we had a similar device and the knowledge that it was an independent power source. Immediately this "Magic Cube", as it was nicknamed, was transported to Los Alamos for testing to figure out how it powers anything at all when it doesn't seem to draw power from anywhere else. With the assistance of our ETE allies we were able to quickly discern that this Magic Cube wasn't magic at all and in fact worked using the

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

same type of technology that created that vacuum at the front of the Starship that we were also just learning about. Once that was established, it was given an official designation. The new classification for this device was: P.V.E.E.D. or "Particle Vacuum Enhanced Energy Device" It's like a zero-point energy device on steroids. Paired with rare elements, it runs off of charged dark matter. It pulls invisible energy that exists all around us into the device using that technology and then turns that into usable and safe electricity. You can plug anything into it from a cell phone charger to an entire power grid for an entire neighborhood. Larger device could power an entire city! The energy output depends on the "demand" put to the device. It never overheats (stays below 80 degrees) and **NEVER** runs out of energy... EVER... Do you see where I'm going with this? I will touch on all that later in this Document, but just so you know, we have ALL these technologies I am referring to and they are **NOT** "experimental" at all, so don't let them lie to you. We perfected these technologies **DECADES** ago. Also, while on planet Serpo, our Team encountered an animal similar to an armadillo that startled them. The Eben guide that was with them used an acoustical weapon to disperse it. This device is what jump started the Navy's development of their own acoustical weapon and was the breakthrough we needed to develop all of our sound wave weapons. Some you know about and some you don't. The only other one I will refer to is the one the National Guard have mounted on top of some of their Hum-Vs to use during riots to disperse large crowds. All those (and other) sound wave weapons/deterrents were either directly developed from, or kickstarted an already in the works process of development, originating from some animal on an Alien planet that startled a secret Team of Earth born Humans while exploring. Talk about a full circle moment... The thing is though; that armadillo like animal wasn't actually aggressive and is found in a variety of sizes all over Serpo. The Team DID however, encounter one VERY aggressive animal while exploring/mapping one of the "quadrants" in the Southern hemisphere. It was a snake-like creature about 15FT long and approx. 1 and a half to 2FT around. Its eyes were not like that of the typical Earth snake. They were more of a circular rooted Human type eye. Our Team shot and killed this creature and in true American form expressed their interest to cook and eat it to the Ebens that were with them. The Ebens said not to, so they didn't. The Ebens were also disappointed they shot it. There were not a whole lot of animal life on this planet like there is here on Earth. We encountered a large Ox-looking animal that the Team nicknamed "The Beast". This was the animal that the Ebens allowed our Team to hunt and eat to provide us with much needed protein. The Ebens were not meat eaters and only ate Fruits, Veggies, and other types of food and "pastes" made from plants and crops. Not to get too vulgar but I think it's scientifically relevant to tell you that the Ebens had to actually dig new "trenches" to accommodate our bathroom needs. Eben defecation is slightly more similar to that of cats, so as you can imagine, their "area" they are accustom to utilizing was much smaller. Now, there is another animal on Serpo that is similar to a Mountain Lion, but had a sort of "mane" around its neck. Neither of those animals were hostile. There were no reports of any fish, but there was description of

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

water life similar to Eels about 8-10 inches long and smaller. Only two types of flying animals were observed. One similar to a Hawk and another like a flying squirrel type of animal. There were **NO** flying insects of any kind. There were some small bugs similar to cockroaches, but smaller. These bugs were documented as infesting the Team's equipment sometimes. There was another bug that favored a beetle, but without any "pinchers" on front. Both of these bugs were brought back for study. There were other small bugs observed, but nothing the Team mentioned specifically, but if you go back and listen to the entire audio journals of 518, I'm sure there is detailed accounts of every living biological creature encountered on that planet. Serpo was explored by our Team a lot the first few years. They mapped the planet and broke it down into a Northern and Southern hemisphere. They then broke each hemisphere into four "Quadrants". The planet itself is tilted sharply around 32-39 degrees. The South "pole" is extremely Hot, dry, and volcanic. There are some very large canyons and caverns in certain Quadrants of the Southern hemisphere but the closer you get to the Equator; vegetation starts to spot the desert. Once you reach the Equator it's self, there is more vegetation, bodies of water, animal life, and is where the main Eben villages, colonies, and outposts are. Once you reach the Northern Quadrants, there is **A LOT** more vegetation and animal life. The climate is more suitable for Human living conditions. There are large mountain ranges, some snow packed at their peak, and trees similar to Earth's Evergreen trees. These trees emanate a form of white/milky liquid as opposed to "sap" and is used by the Ebens as a form of nourishment. Our Team documented that it was sweet in taste like apples, but with an undesirable "after-taste". The Northern hemisphere has both tall and short grass. The shorter grass has a "bulb" at the top of each piece almost like a Clove, but it's not a clove at all. The North "pole" is snowy and extremely cold. The Ebens need protective suits to stay there for any period of time. The Northern hemisphere is also sparsely populated with a different "type" of Eben. This Eben is slightly taller with a larger head. The Northern Quadrants also contain "marshlands" and in these marshlands were plants that had a much larger "bulb" that was reported to taste like a "melon". The Ebens used this as a main source of food. The temperatures are as follows: The South pole is between 99-135 degrees. The Equator's average temperature is between 80-120 degrees. The Northern Quadrants vary from 75 degrees, down to about 35 degrees depending on location and time. The North pole is odd. It is a **CONSTANT** 33 degrees, but since it **NEVER** receives direct sunlight, deep snow is able to accumulate. The topography is as follows: The Southern hemisphere is mainly all flat desert except Quadrant 3. Quadrant 3 is filled with valleys, caverns, and "gullies" as deep as 2-3000FT. (Q-4 is the only part the snake like creature was ever spotted) The only anomalies to flat desert in the other Quadrants of the Southern hemisphere is the presence of volcanos that spot much of the lower hemisphere. The Northern hemisphere contains both mountains and valleys in all four quadrants. One mountain was documented as being close to 15,000 FT high at its tallest peak. After several hard years around the Equator village where our Team was living, the Ebens helped them relocate to a more suitable area in Q-1 of the Northern

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

hemispheres. Team leader 102 was from Colorado (mis- “spoke” in written version of this document), but had been to Montana before. Some of the other Team members had also either been either FROM Montana or traveled there in their lives before. The Team’s consensus was that the area in Q-1 where they were relocated to resembled the Montana landscape back on Earth, therefore Team commander 102 named their new base of operations; “Little Montana”. Our Team witnessed a lack of social entertainment within the Eben communities. They observed one sport of some kind similar to soccer but with a smaller field of play. They observed a game similar to “duck duck goose” that the Ebens seem to enjoy. They observed one complex game similar to chess that was played following the death of two Ebens in an aerial accident, The “board” was as large as several hundred square feet and marked with squares. The “pieces” were the Ebens themselves, and the last team standing out of two teams competing wins. The Eben’s schedule revolved around work and prayer. They pray multiple times throughout the day. Each village used something like a “sun-dial” type of tower in the middle of the village. The tower sits in the middle of the circle. There are four quadrants to the circle and a symbol in each quadrant. Sunlight shines through a “lens” type of glass and reflects off of it like a mirror onto one area within the circle. When the light lands on one of the symbols, it then dictates it is time to stop what they are doing and move to the next task. (Work, prayer, eating, going home, etc.) Their homes are akin to adobe brick, igloo type of structures with dirt floors on the inside. They have no T.V.’s or technology that is stationary within their homes. They live in a society of “heterosexual” Male and Female households. They have sexual intercourse with each other the same as Males and Females on Planet Earth. They have sex both for procreation purposes and pleasure. Our Team members were allowed to go anywhere on the planet with the exception of; into an Eben home. This is the way that the planet side Ebens lived within their communities, however this does **NOT** speak to the Government/Military leaders, nor other leadership within their civilization. Serpo is NOT the Eben’s original home planet. Their original home planet was destroyed by uncontrollable volcanic activity and rendered uninhabitable. Touchscreen “TV” monitors were used only for professional purposes and only in “common areas”. (Yes, this civilization is where our govt. got touchscreen technology from, before seeding it into our tech industry for “Human Ingenuity” to be applied to best suit our purposes) The Ebens also carried a handheld touchscreen device akin to our “two-ways” from the mid 2000’s. Their device was capable of hologram usage though. These devices also doubled as a GPS type of tracking devices. **ALL** laws were enforced by the military. They lived in a “military state” ever since their “Great War”. They were victorious in this war, but it lasted for what we would call 100 years, (approx.). They are said to have defeated a very malevolent species. They used cloned soldiers (CBE’s) as their main fighting force. Following that, they live in a “police state” where the military are the police. The Ebens that our team encountered seemed to not have any complaints about this.

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

Upon arriving on Planet Serpo, our team members were given a version of this same device and told to keep it on their person at all times. The Team members documented what they saw and experienced by using comparisons to their own life experiences and knowledge from their lives on Earth. (Hence; "Little Montana") The organic experience of learning as they went was crucial to mission success. After exiting the Starship, and documenting what they initially saw (two suns, dry land, etc.) that first "journal entry" of Team commander 102 became the initial introduction to their Eben "liaison" for their time on the planet. This was a Female Eben the Team documented as; EBE-2. (EBE-1 to THEM was actually the commander of the Starship that brought them there) I will now share an excerpt I have authenticated from a publication. I first encountered the complete version of this excerpt in 2003 during one of my first two illegal Briefings. What I read and was Briefed on was extremely more detailed and complete, however I can unequivocally authenticate **EVER WORD** of this excerpt to be true... Here it is:

Team commander 102; "But large numbers of ebens are welcoming us. They seem friendly. Then almost shocking us, someone speaks English. We all look around and see an eben. This eben speaks very good English. This eben we call ebe2, speaks almost fluent English, with exception of not really pronouncing the letter W. But ebe2 does a good job speaking English. Ebe2 says we are welcome to Planet Serpo. Ok, that is the name of their planet. Ebe2 shows us a device and tells us every one of us must wear it. It looks like a small transistor radio. We put it on our belts. The weather is extremely hot. Asked 633 to take temperature. 633 says it is 107 degrees. Very warm. We take off our top jacket and leave us with one piece flight suit."

That "device" was WAY more than just a transistor radio, as I've already described. **THOUSANDS** of pages of typed up transcripts of these audio journals were transcribed for 8 years following the Team's return. They were completed in 1986. These transcripts, the audio journals themselves, written entries, written notes, and all the soil samples, pictures/slides, videos, examples of planet/insect/some animal life, ETC. are **ALL** stored in subterranean levels of the DIA HO at Bowling AFB, as well as, subterranean levels of the base itself. There is an entire vault akin to the Vatican's "secret" library that houses **ALL** things **PROJECT CRYSTAL KNIGHT** underneath Bowling AFB. That's Facts. The CIA and Air Force S.O.C. have their copies of a lot of the DIA files, but then have their own files named **PROJECT SERPO**. The Air Force SOC's files are located in FL at Macdill AFB. The CIA's files are at their HQ in McLean VA. Instead of "asking", DEMAND the **DE**classification, RELEASE and CONFORMATION of these **UN**redacted files and you will **SEE** for yourself that every word of this is FACTS. I will now direct you to a short video clip, in two parts. Again, when I read the full transcripts to the excerpt and other recordings. I assumed they were from audio recordings until the excerpt containing a portion of the EXACT SAME transcripts I viewed years ago matched excerpts attached to a video released on YouTube

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

was referenced in a publication I came across. I **KNOW** the transcripts to be **100%** authentic. As far as I know, it's still viewable, but if it's not, Command or subpoena YouTube to produce it from their archives. This next part I'm only guessing; but I would find it hard to believe that a massive company like YouTube didn't catalog the videos it's taken down for legality issues that could arise. Now back to what I **KNOW**; Surviving family members of the General that is speaking in this video could authenticate his identity for you if he has passed away, if they so choose, He wasn't even cleared to see the Team Members, only record video briefings for them to watch. This, and ALL related debriefing videos, are Classified at an additional clearance under **TOPSECRET: CODEWORD** clearance. This is called; **ABOVE TOPSECRET MAJIC EYES ONLY**. The reason why "majic" is spelled with a "J" instead of a "G" is because the title "MAJIC" is in reference to The Majestic Twelve Group. Meaning; at its initial **T/S: CW** clearance, it is additionally classified content within that Umbrella Clearance, that only MJ-12 and those "Eyes Only" that MJ-12 cleared to participate/view, defined as **MAJIC EYES ONLY** or **MEO**, were authorized to view it. So now you understand the full classification attributed to the top of this document. The exact domain that was listed for this video was: <http://youtu.be/SZqtzKW4hH4> it's titled "Film from The Box". The original film has had clips added to it as the General speaks. The original film is just him speaking into the camera the whole time.

As I stated earlier, if you know what's real and what's not already, and you know what to point out where, you will be **AMAZED** at what has been right under your noses the entire time, while being drowned in all the fake "insider accounts", counter intelligence, and mis/disinformation on purpose. As also stated earlier; The **PUBLIC ACCLIMATION PROGRAM** is a real and purposeful thing. Some screen writers, directors, producers, and others are directly and knowingly involved; **HOWEVER**, they are the minority. Most of the Classified information that gets adapted to/through film/TV is done so with powerful "suggestions" to those making it, while making a completely fake and fictionalized project. Not in a messed up, nefarious, or sadistic way...**NO**. In a; "Hey you should add this, that, and the third", type of way from an influential source. Certain other directors/writers and others, like I said, **ARE** directly involved. This is also in a non-evil, positive, and proactive way approved at the highest levels. As truly the trailblazer of the Public Acclimation Program, I feel as though one specific director needs to finally be given the true visionary credit he **SO** blatantly deserves, even beyond ANYTHING he already receives. I can tell you now that he will have mixed emotions about me actually confirming his involvement, because he is still currently and directly involved. He will most likely feel vindicated and upset at the same time, but ultimately, he will adamantly deny knowledge of or involvement in this program because of the NDA he signed that hasn't ran out yet. He would be under threat of imprisonment and possibly even death if he violated that because of the subject matter. Because of who he is, if **HE** were to blow the lid off this secret program and the Classified knowledge he knows, everyone would believe him. I did not arrive at this decision lightly. I don't know

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

him personally, but I HAVE read his name in Classified files pertaining to the Public Acclimation Program, as well as read the transcripts of the debriefing he “gave” to the Air Force/CIA in 1977 where they were demanding to know where he received his classified knowledge from, that he blatantly portrayed in a film... Let me be very clear; **NO ONE** can be mad at this person for “not telling us” What he knew, because of what would happen to him if he did. By all accounts; he actually DID tell us, just not in the way I’m telling you now. So, after careful consideration I’ve decided to set the record straight and confirm his involvement in this Classified program, as well as, reveal SOME of the “easter eggs” within his work and films he was involved in, as well as historical FACTS. Make no mistake, there has been years of speculation, almost “folk lore like”, concerning this person and the “possibility” that he has had some kind of UFO knowledge bestowed upon him by our military. Today, I will denounce the “conspiracy theory” labeled nonsense, while confirming the reality of his participation in MJ-12’s Public Acclimation Program. I mean no ill will toward him or his work, and I can not stress to you enough how important it is to understand his role, and significance WITHOUT trying to connect this TRUE information to “deep state” conspiracy labels. The labels are the thinking errors that are some of the reasons why the simple truths have been buried before today.

In 1974 Steven Spielberg was contacted by a documentary film maker named Robert Emenegger. “Bob” Emenegger was finalizing a documentary he was tasked to put together by the Nixon administration. First contacted by H.R. Holdman (spelling may need corrected) in 1972. There are detailed files and documents from multiple agencies detailing what I’m about to tell you, but none more than the MJ-12 Staff Documents that chronicle the conception of its Public Acclimation Program. I have read many of these documents and others that corroborate each other. If you doubt me still, then kindly ask or subpoena Mr. Spielberg to submit to a polygraph under oath and see for yourself. Here it is: H.R. Holdeman had contacted Robert Emenegger and told him he would like him to make a documentary on President Nixon, touting all his positives, in an effort to get him reelected. He explained to Emenegger that he would get access to Classified information/files that detailed projects/programs President Nixon would be Declassifying in the near future and that he would have total and unprecedented access to these things. Some things involved animals being used in battle and for intelligence gathering, and technologies that were still Classified, and other advancements. Emenegger visited Wright Patterson AFB and others, being introduced to a Colonel Coleman and eventually Paul Shardel (spelling may need correcting). Shortly after his visit to Wright Patterson, he was invited to Norton AFB and taken by Paul Shardel to a secured room within the Air Force’s Film Depository at that time. It was there that Paul Shardel just bluntly asked Emenegger how he felt about making a documentary film about UFO’s? He then went on to explain to Emenegger that it was their position that if President Nixon was the one to tell the people the truth about UFO’s. and provide the evidence, that beyond just re-election, it would cement his legacy with

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

the People after the damage done by the Vietnam war. Emenegger agreed to do it (noting that this would probably not be done before the election, but Nixon won anyway), and Paul Shardel along with Colonel Coleman provided Emenegger with pages and pages of Classified material that told the God's honest truth concerning what we knew (in general) about UFO's and Extraterrestrials, for the most part, at that time The files detailed real cases and contacts/abductions/sightings MJ-12 had confirmed information on. He then gave Emenegger his word (Paul Shardel) that when the documentary was complete, That he would provide him with reel-to-reel film of a recorded meeting between the United States Military and Extraterrestrials that "took place at Holoman AFB" in 1964...He wanted Emenegger to include the actual footage, at the end of the documentary. When it came time to produce the footage, at the very last minute, as the film was supposed to be on its way by hand delivery, Emenegger received a call from Colonel Coleman telling him the film wasn't going to happen and that President Nixon could no longer be connected with anything of the UFO subject "after everything that had happened" by then and because of those "recent events" it was determined that to connect the President with such a controversial subject would only hurt Him further than help him, and that the missions/projects that Nixon was going to Declassify, no longer were going to be Declassified. The Office of The President of The United States was no longer endorsing this documentary and he was on his own. Robert Emenegger finalized his documentary anyway; with all the information he already had and had made copies of. Just without the promised footage **OR** the confirmation to the Public from the Government that the information was authentic and from them. As I said, he made copies of all his Classified documents and in 1974 he gave them to an up-and-coming film director named Steven Spielberg Emenegger released his documentary in 1975. It was titled "UFO's: Past, Present, and Future". He told Spielberg what had happened and Spielberg contacted his own sources in the Military and armed with what he already knew, worked with his sources to get introduced to Dr. J. Allen Hynek (spelling may need corrected). It was through this source and others, he then connected the information he already had to that of Project Crystal Knight, something that Emenegger was not privy to Dr. J Allen Hynek never revealed those details to Emenegger, instead he led him to believe the 1964 meeting happened by chance. Spielberg was immediately determined to make a movie revealing this truth, so he contacted his friends at Columbia Studios and told them flat out; "I want to make a movie about UFO's". So, they bought him a script that was written already as the foundation. Spielberg then locked himself inside his room at the Sherry Netherland Hotel in New York City for three days with all the Classified information Emenegger gave him, put with what he received from Hynek and others, and rewrote the entire script in those three days with no assistance. The original script was called "Kingdom Come", but Steven Spielberg renamed that as well. The new title was none other than "Close Encounters of The Third Kind", That title was a nod to the Air Force's "Project Bluebook" and it's identifying methods to describe what type of encounter the person reporting it had. This was A.A.T.I.P. before there was an AATIP. (It was

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

supposed to be a project to investigate UFO encounters but secretly became a project to debunk them). I will give you one guess as to who was the Head of Project Bluebook for the Air Force... His name was Dr. J Allen Hynek.

Spielberg now had a script that used real things to tell a fictional story, but capped it off at the end with an actual historical event that I have already briefed you on. The story of Roy Neary was fiction and a carryover from Paul Schrader's *Kingdom Come*. The location of "Devil's Tower" at the end was fiction. The fictionalized story it 'self was layered with fictionalized versions of information that was based in reality in some way, but at the end, he decided to depict an actual historical event almost identically to how it looked and happened, concerning the departure of our 12 Team members that left for Serpo on July 16<sup>th</sup> 1965. He incorporated "inside jokes" for those who knew about it, and were involved with it, so that they would **KNOW** that he **KNEW**. I will now point out those things for you: He showed it was a pre-arranged meeting between our Military and ETE's and not some "chance happening" like Roswell was. He showed that he knew it took place in the summer by instructing his actors to dress in summer attire even though where they filmed was a cold night. He showed that he knew that the meeting wasn't the first one by showing this scene as being "all business" and not a diplomatic meeting. Because he knew **THAT** meeting had taken place at Holoman AFB, 15 months earlier. He showed that he even knew that the Extraterrestrials "spoke" in musical tone type of language. He showed that he knew about our Government first communicating with EBE-1 using sign language after Roswell. He showed how the Team members waited on a bus by having them arrive on a Greyhound. He showed that he even knew that two women may have been part of the initial 12 selected for the mission, not to mention, knowing the **EXACT** total of 12 Team members departing. He made it at night so he could have the Team wear thick protective sunglasses, showing to everyone who knew the truth that he **KNEW** the Team went to a very bright planet with two suns, and had to actually take similar protective glasses with them. He showed that he knew they took their own supplies with them, but instead of 45 tons and thousands of square feet it actually was, portrayed it as supplies in a piggily wiggly trailer and other similar tractor trailers. He showed that he knew the shuttlecraft was of an impressive size. He showed that he knew it was to be a long mission by instructing the actors playing the Team members to look as if they would be gone a very long time, and instructed the actor that was playing the minister to call them "pilgrims" in the script. And even though that would be plenty, he showed that he knew the ETE's only exchanged **ONE** of their own for 12 of ours. However, in the movie, that one different looking Being got back on the ship. Representing the opposite. There is absolutely **NO WAY** Steven Spielberg would have known all these EXACT details unless he **KNEW** all those EXACT details, and I can tell you from Classified accounts I've seen myself; That is EXACTLY what happened! After the movie's release in 1977, he was immediately picked up and debriefed on how he knew these things. Following this, he was recruited to slowly feed true information directly to the People, in a fictional way, meant to

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

desensitize the American People to the truth, so they're "ready" when they decide to actually confirm things. (Still in a deceptive and dangerous way though) THAT was the beginning of the Public Acclimation Program. Other directors, writers, producers, etc. were recruited starting in 1977. Some productions received "ideas" for "futuristic technology" to be displayed in their films, and some were just directly instructed. Others would then come up with their own ideas and write their own things after being inspired by the Public Acclimation Program without even knowing it. The truth is; "science fiction" movies and shows didn't just inspire inventors to invent all the things we saw in movies and shows for the last five decades. It was being "seeded" into our industry and THEN our human visionary minds made it better and better for OUR purposes. That's Facts. I will now detail films that adapt the species from Roswell and/or the Roswell crash into their script. Here it is: The first one Steven Spielberg was only "involved in" and that is Roland Emmerich's "Independence Day". In that first one, the Secretary of Defense reveals to the President on Air Force One that "Area-51" is real (almost two decades before the CIA actually confirmed its existence to the public). When they arrive, you can go back and look at the "easter eggs" of information. The "crashed craft" capable of flight (which secretly represents the Kingman AZ craft from 1953). The dead ETE's being kept in glass tubes of liquid to stave off decomposition. The larger ship remaining in orbit while smaller craft, but still large, came to Earth. But representing the benevolent Ebens as fictional, evil monster looking beings that came to take over the Planet. That is also something that even some less informed, yet still involved, military personnel in real life thought years after the Roswell crash, who were not "cleared" high enough within **ABOVE TOPSECRET** clearance to know about Project Crystal Knight/Serpo, our friendly interaction, OR our SUCCESS at reverse engineering their crafts with their help. Like for example; Colonel Phillip J. Corso. He had ABV T/S clearance, but not high enough for EVERYTHING, despite his work in the ARMY's Foreign Technology Division. He was kept in the dark, but since he knew they crashed while observing our Nuclear Arms holding facility at Roswell Army Airfield, and that human body parts were found among the debris, he ran with the incorrect assumption that they were here to invade us, and since he was never told otherwise, he didn't know he was wrong. He knew about the immediate events following Roswell and was tasked with SOME of the earliest "seeding" of certain technologies to our industries, Nothing more. My point is; "Independence Day" feeds right into that false narrative while still showing those "inside jokes" of true information. That's the "representing the opposite" I mentioned earlier in this Document. That "True North" as its counter-part reveals it 'self by way of another fictionalized character in part two; Roland Emmerich's "Independence Day: Resurgence." That artificial intelligence robot sphere character that comes through a "wormhole" (fictionalized version) to help humanity, actually represents the Ebens from Serpo. Towards the end, when it tells our scientists at area 51 it is going to "teach" us about deep space propulsions and wormhole travel, just look at it's "star chart" that quickly pops up. Wormholes like I explained earlier, are not something we make

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

technologically, they are already at certain points in the Universe, but take certain technologies to earn the optimum speed required to see and access them. Also, the film shows you all a fictionalized version of what we already have by way of repulsion craft flying around and extra-atmospheric travels to and from the Moon. (YES, there is more to that, but I don't feel comfortable revealing those Classified details yet) Also, go to the scene at Area 51 (and a few others) when the former President from part one chooses to fly the mission and when he gives his speech, with everyone standing with their backs to a huge hangar door. Even though none of the other scenes show you hangers 1-11 in total, you will see the BIG number "12", out of all possible numbers, just starring at you. This door is shown multiple times. That's another easter egg you would normally not even notice, or think means anything, but is actually meant to pay homage to the 12 Serpo Team members and MJ-12. If you take just the Roswell, Serpo, Kingman, MJ-12, and "Group-6" information I have briefed you on, and go back and watch A LOT of "science fiction" movies **RELEASED** after 1977, and now especially 1999; SO MANY things will now jump out at you...I was briefed by my mentor on exactly how to spot all this, but some Hollywood productions like Close Encounters of The Third Kind and Back To The Future 2, I was briefed on specifically with the easter eggs SHOWN to me. I know of only one production that produced truthful information and details outside of the P.A.P. and before it's conception. This TV show didn't focus on Classified information happening on Earth for the most part, but revealed things going on in space that the creator was made aware of during a "Remote Viewing" session in 1960, following a "GFL" representative meeting with the Eisenhower administration from 1957 to 1960. The GFL stands for "Galactic Federation of Light" and that representative's name was "Valiant Thor" and he was Human. I **WILL NOT** release anymore details at this time about who/what the GFL is, what they do, nor Valiant Thor or what his mission consisted of. I don't feel comfortable at this time releasing that information. I also **WILL NOT** be releasing any of the other names of those I **KNOW** are part of the PAP at this time. I want to give those individuals the chance to come forward on their own first. Without revealing those exact names though, I **WILL** however, reveal another production that Steven Spielberg worked as a producer on, in which Public Acclimation was applied. In Robert Zemmicks and Bob Gale's "Back to The Future 2", let me ask you something; When the characters traveled to the future from 1985 and went to 2015, why did the movie's vision portray the future youth as being futurized version of "hard rock"/"punk" type rocker kids? It was because at the time of the movie being made, they had to imagine the future version of what they **KNEW** we already had in the 1980s. They could not have foreseen that Hip Hop, Pop, and Country would end up shaping and influencing our styles and youth, because all they saw at the time of filming that movie in the early 90's was the tail end of Hairbands, Heavy Metal, and the dawn of "Grunge". So why do you think that a Steven Spielberg produced film, when envisioning what transportation looked like 30 years into the future, portrayed a civilization that had implemented "flying cars" into their/our society? It is because the same principal was utilized when imagining

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

the future version of what Steven Spielberg, and others, **KNEW** we already had, and completely expected our Government to have integrated such repulsion technology, we had secret for decades, into our society by 2015 surely. He couldn't have foreseen our Government deciding to make the conscious decision to keep it from their Citizens and not allow our repulsion tech to change, help, and fix the world. Why do you think Hollywood pictures, even before the actual PAP, were preceded by commercials for "flying cars" that always said; "coming soon", and then just stopped? So many times, these "Disclosures" have been scheduled, only to be canceled beforehand by MJ-12... The purpose of pointing all this out to you, is to offer you the groundwork for understanding **THIS** side of the PAP, so you can identify it yourselves and issue whatever subpoenas you need to. Steven Spielberg should be regarded as a National Icon, even more than he already is... It's because of how well he, and others, have delivered, that we as a society, species, and Nation are **MORE** than ready for this detailed Whistleblower Document I have put forth today. A true trailblazer and an American Hero! On behalf of the American People; **"THANK YOU..."**

Now, when it comes to Presidential Administrations, it always depends on **WHO** the sitting President is, as to what they're told/not told, and/or how much. Some Presidents are told more than others. Some are briefed on Roswell/pre-Roswell, and/or proof of ETE's existing, but not briefed on our relationships with them and/or our repulsion technology. A few are told close to nothing, or even fed disinformation all together. The President is a temporary employee. President Ronald Reagan's briefing was in its totality (for the most part) because his briefings are supposed to be used as proof of everything during the reveal/disclosure process. I have now expedited that reveal/disclosure and those tapes being used, as well as other things. There is also a book that is called the "Red Book" that contains all the most significant information on the United States' knowledge/involvement in this subject that is kept. The current "editor" of the book, usually a Group-6 member, or DIA administrator, will update and revise any entries to the Red Book. This "editor" also is the one (for certain Presidents) who is instructed to choose specific events/information and type up an **"EXECUTIVE SUMMARY"** to provide those specifics to that sitting President. It's called the Red Book because it's old and a brownish-orange, giving it the appearance of being "red". It's extremely thick and updated only as needed, following a multiphase vetting process and final review by the current editor, for the possibility of being added in. So, I can tell you that when these Presidents say that they "demanded to know" if we were keeping information or evidence of ETE's, and they "can assure us" there is nothing, and then laugh it off on a late-night show; I "can assure you" that they are **LYING** straight to your faces! They have been ordered to by it's Classified Security Clearances though. They feel as though they have no choice, so I don't blame them entirely. I only blame them for NOT doing what they claim they do by; putting the American People before their own well beings, there is a precedent of deterrence set decades ago, so I get it though. I don't agree with it but I get it. Any President that would stand up to that precedent of

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

deterrence and tell the People the truth of what they knew would be a HERO, but a hero that defied MJ-12 and their “slow release” plan that’s enforced by the entire authority of the Intelligence and Military, even though approx... 5% of ALL of them even know about this, with approx... only about 2% actually being involved. When MJ-12 was created following Roswell, they answered ONLY to the President. That switched to the opposite in 1963 when they set a new precedent within that dynamic. While the rest of you have been led astray to bicker over petty politics and supporting your political affiliation over trillions of dollars to find or invent solutions we already have and have had for **DECADES**. You have been convinced, as most Citizens are, that all of what I have been telling you in this Document is laughable, fake, a hoax, worthy of the “conspiracy theory” label, career ending to accept, ETC, but in all actually; The honest reality that exists is **SO** much different than ALL society has been taught, that it could/would change everything if you consider my proposal to address it. Only the correct leadership and “Plan of Action” has the chance to force this change. I will elaborate on that later in this Document. But **RIGHT NOW**, you spend trillions covering up what we DO HAVE, whether you are aware of it or not, while the ones that ARE aware of it put out these placating “ideas” and antagonistic speeches that are so condescending in their delivery to the American People that I’m offended. I’m offended and disgusted as an American Citizen. I feel disrespected as an American Citizen and if you put down your walls to receiving this truth, I know you will be too. As someone who is Beyond Partisan, I can, and should, give credit as well as ridicule honestly, depending ONLY on the facts of what is fact. Period. Any personal view I may have of an individual holding office of a political affiliation gets to be irrelevant when it comes to how I critique situation by situation, based ONLY on that one situation, as opposed to having a tainted starting point and thereby giving a bias critique like many of you do, and the example you so blatantly set for all those Citizens who subscribe to a partisan viewpoint, following, and sense of obligation to support a political party no matter what the actual issue may be. I never have to worry about that being Beyond Partisan. When I critique, I’m just being honest overall, instead of “honestly loyal” to a political party. When critiqued against the set of rules that our “Satellite Government” has put in place; President Biden has been OK. Not the best, not the worst. When critiqued against what the USA **TRULY** has, He’s been horrible, but so has every administration when valued under that light. So, the common denominator that binds every administration since 1963 is the set of rules about secrecy when it comes to THIS subject and everything connected to it. Now, just incase President Biden wants to claim he has no knowledge and say; “I’ll look into it”, let’s go ahead and debunk that...

As Vice President for eight years under the Obama administration, he would have been exposed to **SOME** truth, enough to know what he needed to be briefed on once President. The Obama administration was extremely active with our Eben allies and even held an International summit with them his first year in office. It’s unclear in the reports if he attended or not, but you could always go back and look at official travel

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

records. And just as everything else in this Document, I don't "make claims", I tell the truth and then tell you how to use your authority to verify it. Cross reference dates with travel records of the Intelligence Directors, the Joint Chiefs, President, Sec Def, Ect with these dates over the years and see if you find any "vacations" or "diplomatic trips". Here are the **EXACT DATES** that our Eben allies returned for diplomatic meetings with our Military/Intelligence and MJ-12: April 28<sup>th</sup> 1983, April 7<sup>th</sup> 1991, October 22<sup>nd</sup> 1996, November 28<sup>th</sup> 1999, November 14<sup>th</sup> 2001. All those meetings were held at the Nevada Test Site where Groom Lake (Area 51) and other sites are located. Then the international summit on November 12<sup>th</sup> 2009 was held in the Northern Pacific Ocean on "Akau" Island of the Johnston Atoll Island system owned by the U.S. Government. Then another meeting back at the NTS on November 11<sup>th</sup> 2010, and another November of 2012. My last viewings of Classified Documents were September of 2012, for reasons that will become obvious, and when I later encountered the exact same list in a publication, the date of that 2012 meeting was also "unknown". When I was briefed on this specifically, it was a future meeting waiting to happen, so it's possible that my retired mentor who conducted these briefings to me, that kept a select few sources for updated information, used the same source as the publication that was used as a platform for the PAP. I know ALL these dates to be absolutely correct. The documents that I read and what I was briefed on in Sep. 2012 also detailed the 2009 International summit in more detail, so when I saw the publication do the same, I knew unequivocally that its information was authentic. During that briefing, I was also informed that if the Presidential Administration did not change in the 2012 election, that another THREE meetings were planned for the following four years. And as we all know; it did not. So **THAT** would mean that the Obama Administration held more meetings with THIS specific species of ETE's in eight years than **ALL** the previous administration **COMBINED** since our Team's return in 1978. Now, all the Classified information I am privy to concerning activities of other countries and their own ETE interactions, I **WILL NOT** divulge at this time, but by doing that, it limits me to how much actual ETE information I can actually give you details of, due to the world-wide implications. As with the PAP participants; I want to give these other Nations the chance to come forward on their own first. **HOWEVER**, once they involve their self in a Classified project or meeting that I am already briefing you on, I **WILL NOT** hide their involvement, because to do so would be to jeopardize the integrity of this Whistleblower Document, and I just won't do that. But, for now, any questions this next information motivates you to ask, in respect to the other Nations who participated, I respectfully instruct you to direct those questions to said Nations.

Our Eben allies, and other ETE's have agreed to no longer interfere with Earthly affairs between Nations, after an agreement was reached, first with ETE-1, then others. Some ETE species have no interest in involving their self in the first place and just go about their business as usual, while some just observe. The point is; once the agreement was reached, along with certain Nations becoming "Allies" with certain ETE's, most stay out of our affairs. As a counterpart to that; once these Nations leave

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

Earth for space, Nations that act as adversaries on the Global **STAGE**, leave their Earthly pettiness at the atmosphere, so to speak, and work together. There were 13 attendees, besides the Ebens, at the November 12<sup>th</sup> 2009 meeting on Akau Island and they are as follows: One representative from the Obama Administration. Two members of the U.S. Intelligence community. Five high ranking members of the U.S. Military. A language expert from the U.S... One representative from the Russian Federation. Two NON-U.S. representatives from the United Nations. (Not from China or Russia either) One representative from The People's Republic of China. One representative from Vatican City, from the Vatican itself. Then there were four attendees listed only as "special guests" that could have been Human civilians or other ETE representatives, but knowing what I know, I would say were most likely reps for other ETE Civilizations with a presence here on Earth. My mentor who gave me these briefings took the same stance. The reason I say this is because during other briefings and viewings of other Classified material on this subject when there were "high-level" meetings held on U.S. soil between a Human and ETE's the ETE's were designated as "Our Special Guest(s)". Being as though I have seen that over and over spanning multiple Agencies' Documentation, I can likely conclude that those four "Special Guests", or "OSG's", were reps for other ETE Civilizations also being introduced to our Eben Allies for the first time. But that **ONE** piece I do not know for 100% certainty like I do the rest. Now, that is absolutely the complete and correct list of those who were in attendance for this meeting. Don't let ANYONE claim to have been there when they were not, and don't let ANYONE claim NOT to have been there when they were. **PERIOD**. During that meeting the Ebens provided six more technological "gifts" to advance us even further (even though we didn't even implement half of what we already have for civilian use yet), and The Vatican gifted the Ebens with two 12<sup>th</sup> century paintings depicting Christianity. When it comes to the Vatican; don't start acting crazy and "defiant" all the sudden. I can **Confirm** for you that VERY high-level members of the Vatican had already previously met with our Eben allies in Washington DC in 2008 and earlier at other locations in the U.S. in the past, and were very encouraged when discussing GOD and Religion, finding many similarities. What they learned (on top of what they already knew) only strengthens their Religious Faith, not weakens it. At this time though, I **WILL NOT** elaborate on what I got to see during my 6<sup>th</sup> Briefing January 2009, and what I KNOW about the "Creator of All Things", or religious history, because honestly; we have to get **THIS** out of the way first, before I can get into what the U.S. Government found out about why we Humans are TRULY here on this Planet and/or the TRUE pre-history of this Planet itself. What I WILL tell you though, is that **EVERY** Religion on Earth will be VERY, VERY happy to find out THAT set of **FACTS**...

Now, I revealed that meeting to cross reference, so YOU can find out the actual identities of those who attended, and to SHOW you that the administration that President Biden was Vice President of for eight years, not only was heavily involved, but took that specific ETE relationship to the World Stage over a decade ago. Now, knowing

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

what I know, with him now the President, he would have been briefed per protocol of the NSDD “action directives” as well as received his “Executive Summary” not including what he was also briefed on by Dr. Steven Greer. So, he at least has to be aware in SOME capacity that we have repulsion technology and are not using it, except in secret, and that we have these energy capabilities. Not to mention just ETE existence in general. But he, like all Presidents since 1963, just leave all that up to MJ-12/Military/Intelligence, and just follows the rules he is given about what NOT to say, or suffer the consequences. Well, that’s wrong. It just is. And **IF** he claims he will just “look into it” or laugh it off, then he is just disrespecting every single American Citizen, including you. But since he believes he has to, I get it. That’s why I have chosen to put this Whistleblower Document together and brief you on this. But don’t think I went straight to “whistleblower mode”, because that would not be true. I had actually been actively trying to do this from within since vowing to. At the end of 2020, I wrote briefly, to the CIA’s “Office of Scientific Intelligence” and Group-6, just trying to get my foot in the door to be heard, but PURPOSELY didn’t mention much, and left out how EXACTLY I know what I know. No reply. I even tried to contact the Former President before He left Office, around January 2<sup>nd</sup> or 3<sup>rd</sup> 2021, attempting to receive help with MY situation, proposing briefly how I could offer my assistance to this subject, as well as him too **IF** he was willing to incorporate a better approach. Hell, I even wrote it in a way to indulge his mindset concerning his own situation, but in my own way. However, only a few days after putting that in the mail though, January 6<sup>th</sup> happened. Regardless of what ANY political affiliation says you are supposed to see January 6<sup>th</sup> as, I decided right then and there; That even though it was done in my own way and laced with a more positive approach, that I would NOT enter ANYONE’s political arena as a “coaxing tool” to help the American People, when contacting politicians moving forward. Either way, I sent it to the White House and he either never was given it, or ignored me. I don’t know. You would have to ask him that. So, I then decided to contact the Defense Intelligence Agency. When President Kennedy and his Defense Secretary Robert McNamara developed the DIA Officially, October 1<sup>st</sup> 1961, it was done with the mindset of transparency to the American People. So, I thought if anyone would listen to me, it would be them. I formatted it as an appropriate Classified Document, provided details to show them I wasn’t some “nut”, or “conspiracy theorist” who got lucky, but ALSO didn’t reveal all I truly know concerning our “charged dark matter” systems and energy breakthroughs, because it wasn’t their Agency that’s involved with that. Then I explained my situation briefly, and offered my solutions (some) and services. Due to not knowing if my previous mail arrived to the correct people before, I mailed that “Certified Mail”, so I could track it, and also keep the information safe. It was delivered at 6:54 AM on March 24<sup>th</sup> 2021 to DIA HQ at Bowling AFB in DC. That tracking number is: **70192280000221254737**. I waited... Nothing. No one even came to see me to ask me how I know what I wrote, but I guess to do that would be to admit it’s legitimacy. So, while continuing to wait, I decided to focus my attention on the June 25<sup>th</sup> 2021 deadline. AND the person who is

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

SUPPOSED to have the authority to handle all of this. So, in May, I decided to contact the one person that the President appointed to oversee everything extra-atmospheric. He bestowed that responsibility of EVERYTHING space related to Madam Vice President Kamala Harris. She is tasked with outer space, clean energy, climate change, Co2 emissions, and basically everything connected to or that would be fixed by, this Exact information. So again, respecting the current Classified nature of the information; I put together a professionally formatted ABV T/S-MEO communication and sent it to someone else from where I am, made sure it arrived. It did. Then I had THEM mail it Certified Mail-Signature Required, but still using MY return address and name on the envelope, so as to not violate any potential mailing laws. I mailed it directly to the White House. It was a 12-page Document with a one page "cover letter" instructing anyone from the Secret Service, or anyone else that opened it, to utilize "non visual" security measures to scan for contraband or security threats, because it contained ABV T/S information they were not "cleared" for, and then upon completion of said security check, to replace it back into its envelope and HAND DELIVER it to Vice President Harris. Then as I said, it was six pages front and back, totaling 12. It was mailed June 10<sup>th</sup> 2021, with an "estimated delivery date" of 6-14-2021 at 9pm. HOWEVER according to the tracking information, it was signed for eight days later on June 22<sup>nd</sup> 2021 at 3:56am. I've never known the mail to run at 3:56 in the morning in DC, but ok. It also DOESN'T say who signed for it, even though I paid for that to be documented. The tracking number for that Certified Mail is: **70202450000101908616**. Simultaneously to this one though, I sent out a letter to the address of TMZ HQ and made it out to Harvey Levin, as well as one to a New York, New York address belonging to Josh Gate's Expedition Unknown/X, telling them both that if June 25<sup>th</sup> came and went, and "the person I wrote in DC" didn't step up, than I then wanted them to come do an interview, so I could tell the American People the TRUTH and say DAMN the Classified security clearances. I gave them no details though. I don't know if they ever got their letters, but I was never contacted to this day, so I would have to assume that they either never got it, or didn't know to take me seriously. You would have to ask them. For the record; My personal opinion is that Madam Vice President Kamala Harris was never given my Classified communication even though it was addressed to her specifically by way of Certified Mail/Signature Required. IF that is the case, let **ME** do something like that and it's all kinds of Federal Mail tampering and Mail fraud Felonies... Just saying. Who knows though, maybe she did get it and is just part of the problem instead of the solution. You would have to ask her that. So, THEN the June 25<sup>th</sup> 2021 **UNCLASSIFIED** report comes out from the Director of National Intelligence. It was just a bunch of vague nothingness and **ABSOLUTELY** not the truth of what we know, or are involved with. Not by a long shot. Around this same time, that Condo building in Surfside FL collapsed and I just watched it unfold on CNN every day. And every day I watched in DISGUST as the rescuers used five-gallon plastic buckets to remove debris. They were under the impression that we didn't have any other technology available to remove the debris without possibly causing

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

more collapses within the debris and risking the lives of anyone who survived the initial collapse. It wasn't the rescuer's fault, they are not the ones with repulsion technology on standby, that could have rendered ALL that heavy debris weightless and rescued ALL survivors in **HOURS!** Five-gallon plastic buckets and they all died... It was THEN, mixed with everything else, when I decided to say; "You know what? The hell with the security clearances, I'm going public". So that's when I authored my first version of this Whistleblower Document and included a proposal for U.S. Lawmakers to vote on, that addresses it all and how to move forward, while volunteering my own services, putting that bullseye on my back. It was 47 handwritten pages and I sent it to the same reliable person, and they made 18 copies of it, and mailed them individually in manilla envelopes to the following offices and individuals, at their "professional" addresses listed: Rep Kevin McCarthy, Rep Nancy Pelosi, Sen Chuck Schumer, Sen Mitch McConnell, Sen Mark Werner, Rep Alexandria Ocasio-Cortez, Rep Michael Waltz, Sen Joe Manchin, Sen Mitt Romney, Rep Bennie Thompson, Sen Bernie Sanders, Sen Rob Portman, and Sen Mark Rubio. As well as: the listed HQ addresses to; CNN, FOX News, ABC News, CBS News, and NBC News. All 18 manilla envelopes with the correct postage were mailed from the same Pennsylvania Post Office in the first week of September 2021. I waited. Not only did no one contact me, I didn't see a trace of this on ANY news outlet. Not even someone incorrectly labeling me some "conspiracy theorist" in a knee jerk reaction. Nothing. It would be likely they never received it, but again, you would have to ask them that. So then by December 2021. I decided that the "first edition" lacked certain details and explanations anyway, so armed only with my knowledge of facts, my pen and paper; I sat down with my original, and re-wrote as I copied. That 47 pages evolved into 61 pages. **THAT**, I mailed out a week before Christmas 2021, with 10 "forever" stamps on the manilla envelope, to the Editor and Chief of The New York Times, Dean Baquet. Again, nothing. I chose the NYT due to the level of integrity and seriousness in which they tackled the A.A.T.I.P. story in December 2017. Then not hearing or seeing anything, PLUS realizing I had miswritten the years when it came to the Robert Emenegger information, and didn't include Paul Shardel and Colonel Coleman, I decided to re-write it AGAIN in February 2022. The 3<sup>rd</sup> edition of the same Document, DOC number **021F947T012**. I then sent that 3<sup>rd</sup> edition to a trusted Family member who then took pictures of each page and created a digital file in the form of a "Google Document", and created a Twitter page to share the link. I had this person "Tweet" for me from time to time, but it wasn't practical. I then wrote multiple addresses and gave them the link to read the Document. The 3<sup>rd</sup> edition was 57 pages with the "Introduction". This was done regularly throughout 2022 until December of that year when I had a close friend from the past reach out to me. This person knows me very well and knows I don't lie, so when I told this person what I was doing and why, they asked to assist me in this matter. This person then created multiple other social media accounts dedicated to this link. Following that, this same person then used their expertise to create a website for housing this document, so I no longer had to give people the link, I could just give them the website.

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

That website was created February 18<sup>th</sup> 2023. I also recorded an audio recording of me explaining **HOW** I know what I know too, and put it on there. The website is: [www.acclimatetowork.com](http://www.acclimatetowork.com) I then tagged many of you in my tweets and posts about this website, attempting to get you to go on and read my Document. I have contacted many of your district offices and spoke to your staff, to no avail. It is now July 2023 and I am typing the 4<sup>th</sup> edition of this Document, hoping that a typed up, detailed version will better get your attention... I **NEVER** could have imagined how hard it would be to get this information out to the public and into your hands. It's now been two years since the 1st edition and every day hundreds of thousands of American citizens suffer/die that don't have to, and every day that continues to go passed without action FROM YOU, they will continue to. FACTS.

NOW; As stated earlier, I will elaborate on my current circumstances before moving onto briefly explaining SOME of my solutions, then capping this off with an Official Proposal to receive your vote. Just as the previous few pages, the next few pages do not contain any classified information, but since the majority of this Document does, or references it, I will continue to place the same "T/S: CW-MEO" and Doc number at the top of each page. If you haven't caught on yet to my current circumstances, allow me to explain. I am currently incarcerated, **HOWEVER**, wrongfully convicted/imprisoned. I'll be the first to tell you that if you just go off what is written, you will be misinformed and misled. The picture that will be painted for you will NOT match the person you will find on the other end of this Document. For two reasons: 1) The information has a tainted starting point being wrongfully arrested. 2) I am also **NOT** the same individual, I was 5-6 years ago, let alone the individual they attempt to describe 9-11 years ago. The truth is; Everyone speaks of the prison system as being focused on "rehabilitation", but very few truly accept that anyone is truly rehabilitated because most people know; Prison is **REALLY** only an industry that is focused on punishment. The point is: If someone **DOES** actually grow and evolve into a better version of their self, it is met with an overly critical eye and pessimistic projections. When you pair that with "the boy who cried wolf syndrome", and then incorrectly incorporate that person's far distant past indiscretions into the **CURRENT** viewpoint, then that person **CAN NOT EVER** find shade from that unjust light that has been cast upon them... The **FACT** is; from 17 to 24 years old I was a full fledge criminal, and you couldn't have convinced me I was wrong. I was a person who did all the wrong things and convinced myself they were for the right reasons. I was the "dumbest smart kid" you could have ever met. I thought if I wasn't actually using violence, then "violent crimes" didn't matter. Plus, there were times when I was really young where I pled guilty to something just to get out of jail, not really understanding until later in life what the impact would be. For example; I was in an on again/off again relationship with a girl three years younger than I was from when I was 17 to when I was 24. When I turned 18, I didn't even know what it meant to **BE** 18. I had just turned 18 in a Juvenile Placement Facility and was still on Juvenile probation at the time. I stole two vehicles, was charged as an adult, arrested, and released

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

on bail the next day. Immediately, this girl's mother told me I couldn't talk to her daughter anymore (as she should have) and my idiot/arrogant self said; "you can't stop us". The daughter ran away, and a few days later we were found sleeping naked under a blanket. I was taken back to jail, charged with a misdemeanor "Corruption of A Minor" and had my bail revoked. I pled guilty to that misdemeanor and received 6 and a half months for that charge, (time served/released) while only receiving probation for the seven felonies from the stolen cars. I had no idea at the time why they offered me a plea like that and I didn't care, all I cared about was they were letting me out of jail. I found out years later that by doing that; they were able to have me listed as a "sex offender" even though it **WASN'T** the type of charge where I had to actually "register" as one or anything... That woman and I continued our on/off relationship until she was 21 and I was 24, when we separated for the last time. Now, I said ALL that to say this: If you didn't know any of that and you thought to look me up and all you saw was "sex offender", you would have thought; "we can't deal with this guy". Without knowing the REAL context and TRUE event, you would have just dismissed me and labeled me incorrectly. **THAT'S** my point: Just as everything else, I will always just tell you what it **IS** and/or what it is **NOT** every time. That way; as long as you have the facts, then you will be able to arrive at a sound conclusion, instead of a tainted one about; who I **WAS**, who I **have been**, and who I have **EVOLED into**, despite my address. Can you imagine what it would have been like to finally say; "I'm done with all that criminal stuff", finish the last couple years of your time, go home a new person, only to be wrongfully accused 22 days later, and focused in on due to your past criminal record and area ties? Imagine you finally do the one thing everyone told you to do, in order to stay out and be a productive member of society your whole life, yet they throw you away anyway... My first couple years back in, I dove head first back into the mindset I knew best and just tried to use it to find ways to escape, while fighting my case (which turned into cases because of that), and I did it in ways where I didn't care HOW it looked or felt. In my mind at the time; I just did everything the law-abiding way and got thrown in jail anyway and they were trying to put me away for decades. I was desperate... Then as I matured further and entered my 30's, I began to reign it in somewhat, but still had to survive in my environment. I focused on trying to make money while on the inside to pay for a good appeals lawyer to come get me out, but this environment will restrain you even further as that happens, along side trying not to die, while fighting for your freedom... Then more years go by and your early 30's become your mid to late 30's. It was at that time that I made the decision that the one subject I always felt I wasn't important enough to do any thing about, but had all the correct information on, was what I was meant to make a difference in, and contribute to moving forward. So that's what I'm doing and have been trying to do now for two and a half years. The **ONLY** thing I'm guilty of in my original case is wearing Jordan's and explaining to a cellmate what they were trying to say I did, while leaving my phonebook out. I've **ALWAYS** maintained my innocence. I even fired a court appointed paid attorney to represent myself, because no one was going to fight for

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

my life the way I was going to. The PROOF of my innocence in that original case is right in the TRIAL transcripts during my cross examination of the state's two FBI Expert Witnesses from **QUANTICO** and the lead detective, where **ALL** admitted in open court, under oath, that there was a "chance it was not me" that committed the crime. If that's not reasonable doubt, I don't know what is. Trial transcripts for case number **21k12-48093** in Circuit Court for Washington County Maryland. Then the second case, also almost a **DECADE** ago now, I can and WILL explain in more detail upon request. It is definitely NOT in the context it was written about when reported on, (nor in the charging documents) and you can see those frustrations come out if you read the SENTENCING transcripts for that second case: **21k13-49256** in the same court/jurisdiction. As explained earlier, As a more immature young me still in my 20's, I had panicked, trying to find a way to post a quarter million dollar bail so I could be transferred to PA for my parole violation and attempt an escape using no violence. In doing so, I wrote a letter and detailed instructions telling a young female I met over the phone, who I never had physical interactions with at that time, how to rob a bank in PA, that I actually did rob in the **PAST** with no violence or weapon. Then I **IMMEDIATELY** found a better way and told that person "NEVER MIND", "DON'T DO IT", and "Burn the letter", so she wouldn't even be tempted to do it later anyway. She listened to everything but burning the letter, however, NO bank was ever robbed, attempted, nothing. But, because the letter was not burned after I was told that it was, it was found in her friend's possession. Now, remember; we're talking about 10 years ago when I was still in my 20's, desperate, and "not caring how it looked or felt". I was wrong for even thinking that was an option in the first damn place, and even more wrong for asking some young girl I met over the phone to be involved. I know. This is something I realized **YEARS** ago now, but it's important that I tell you. I don't lie and I don't play games. I will not hide who I used to be, nor who I resorted back to a decade ago as a panicked reaction to being KIDNAPPED by the state of Maryland for a crime I DIDN'T commit. The facts are the facts and I feel it's important that you hear the TRUE account from me, instead of being mislead by what you may read. I have faith in your judgement and intelligence to see that my past holds little to no bearing on my present, nor OUR future, and especially not my capability to step up to the plate and volunteer my services. But also think about this; they added 20 ADDITIONAL years onto my original sentence of 20 years I should **NEVER** have had in the first place! I had a negative reaction to being falsely imprisoned, and the "ME" in my 20's panicked. I STILL said "Never Mind", it was NEVER even attempted, yet I STILL received 20 MORE years for writing a letter? Really? But a police officer tortures a Black man for nearly 10 minutes, MURDERS him in front of the entire world; And he only gets 2 and a half more years than I did for writing a letter and saying never mind?? My point is; that jurisdiction of Washington County Maryland is corrupt, unjust, and cruel. Not to mention, go back and look at EVERY SINGLE hearing of that second case from the minute that I fired that attorney (PD) too, and where I stated I wanted my "speedy trial". Read ALL the subsequent hearing dates where I continued to be denied a

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

speedy trial and contested every, single, continuance, only to be told it didn't matter that they violated my constitutional right to a speedy trial by over a hundred days because of a two-day snow storm MONTHS before... I was young, I panicked and should have NEVER done it. Period. Only a few months later however, in that same time of my life, same mindset, I was charged in a separate case with planning my own escape, including the same female. It was never fully attempted, but I did have the same person I met over the phone, waiting to drive me away in a stolen car once I actually escaped. I pled guilty to a non-violent, non-felony, and received 10 years. I would have been released YEARS AGO on that sentence, if I didn't have the False first 20 and the Unjust second 20 that I shouldn't even have. Those are Facts. If I was the DOJ or AG, I would convene an emergency review of these transcripts, to see if they actually show what I say (which they most certainly do), and if they do; than commute all outstanding sentences. I also have a "weapons" charge of 6 months too. I had a sharpened piece of plastic for protection purposes. I would have more than that "time served" as well. Then expunge my criminal record from when I was ACTUALLY a criminal, so that I could join the military, specifically the United States Space Force. The reason for that has to do with my Proposal to fix ALL our main issues to do with energy grid deficiencies, the climate problem, inadequacies of "modern" medicine, our government's scientific misinformation and restrictions holding us back, utilizing our REAL space program, along with VASTLY improving our personal and commercial travel, and SO MUCH more.

Now, seriously stop for a moment and REALLY look at what I just listed above. Truly think about that. Don't put your guard up and dismiss me prematurely and allow my current address to dictate your level of encouraging support and involvement. Do you **REALLY** not want to fix ALL those things, and more moving forward, due to me having a criminal record? Open yourself to the possibility that you Finally have the answer, and really ask yourself; why DID it take a person with a criminal past to tell you all the truth, come up with a legitimate solution, and WHY NOT at least consider his Proposal?

I don't believe I was exposed to all this secret information over the course of 2002-2012, when I was free, for nothing at all. Over the years I just sat back waiting for our government to reveal all this on their own time/schedule. And let them decide when the time was "right". But as I have sat back, especially over the last 5-6 years, and watched our planet and Country cry out for the EXACT help we COULD provide, I've realized that if I don't step up to the plate, it will be too late by the time anyone else does. Then I ALSO realized that if anyone "from within", or that would let MJ-12 still control the narrative, DID step up, it would STILL be tainted by politics, greed, loyalty to predecessors etc. and what is scheduled to happen is STILL going to take place... To be quite honest; I don't see how **WE THE PEOPLE** can trust ANYONE from within to lead this charge anyway. Not to be the decision makers OR Commanders of THIS

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

subject. Just look at what took place in Surfside FL... Day after day, week after week, those same people "from within" (or that would be loyal to them regardless of what they tell you) made the conscious decision to NOT intervene and save lives. They did NOTHING! I bet there were members of the DIA/CIA/Group-6/USAF, etc. who could not even look at the TV and watch that tragedy unfold everyday because it made them SICK to KNOW we could have saved our People, and the only reason we didn't was because; "It's Not Time Yet" ...They ought to be ashamed of their selves. And if that, and other, tragedies weren't enough for them to grow a backbone and stand up and DO something about it, than it's not going to be any different if/when you verify my information, if you chose one of them to lead this charge. It would just be more of the same.

I have shown you how to fact check me, get it done, and you will SEE for yourself. And don't let them tell you repulsion tech only works on vehicles, or that it's all still experimental, because that would just be MORE lies. If I was in command of this subject and everything connected to it, as a Commander within the USSF and Director of Space Force Intelligence; I would have already HAD crews, squads, with stored repulsion tech on standby if/when tragedies like that happened as PART of my "Domestic Division" of the "Philanthropy Unit" I would have already created. Ever since I decided to be proactive and reach out internally, I have put a Plan of Action or "P.O.A." together for how to structure everything and enable technological informational "roll outs", Etc. I did this to prepare everything, just in case I was actually awarded the opportunity of actually contributing ALL I am to society. As a Beyond Partisan issue, you/we need a Beyond Partisan Commander when it comes to THIS subject and EVERYTHING connected to it. With COMPLETE decision-making authority, BUT ONLY with this subject and EVERYTHING connected to it. With complete decision-making authority ONLY connected to this; I will be able to obtain NO LESS than \$480 Billion in donated funding AS I "seed" the proper existing industries with only technologies specific to their role in fixing/correcting all our main problems, then also use the obvious benefits to make our daily lives easier at the same time. And THAT'S just in the first 90 days, while YOU all come up with the appropriate emergency "Kick Start" budget for the USSF and what I call "Mission One". Mission One is an 8-12-year deep space mission I have completed the preliminary plans for that calls for 6000 USSF soldiers, 4000 hand picked Civilians, and 500 Joint Military/Intelligence/ETE Allied personnel. I've roughly designed the inside of the Starship, which would be the flagship of our USSF Fleet. I'm already aware of what Vessels we have, and also what we have access to that are outfired for Human biology. Mission agendas, goals, and parameters already roughly figured, as well as what other crafts and technologies that would be housed mostly in the "Hanger" levels of the Flagship. From day one to departure would take 18-24 months of prep and outfitting. As supplies are also shipped in and stored in the "cargo hold" levels.

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

Now, I know you are probably thinking; "This guy has lost his mind. Does he realize how ridiculous this sounds?" Look at it like this; If this authority is ONLY for this subject and everything connected to it and none of this is real. Then I would have NO authority at all right? But if I AM telling the truth, would you REALLY let my address or past stop you from letting me change the planet for the better and save hundreds of thousands of American lives? You could just stick with the same authorities that have been in place, of course, but how has that worked out for you? For us ALL? You will have "Alarmists" try to say that if all this is real that I would just get in there and "ruin" it all. Yea, I would. 100% I would RUIN MJ-12's deceptive version of a slow release "disclosure". I would RUIN their plan to continue to let ALL of you DIE from diseases and viruses. I would RUIN their willingness and authority to KILL American Citizens that get in the way of their plans/authority. I would RUIN their agreements with a few ETE species to allow them to abduct a certain number of Americans per year in exchange for technology and inclusion into the Galactic scene... You're damn right I would ruin all that, and more that I don't even feel comfortable telling you about... But it's coming SOON and I can/will stop it. Don't let the stigma surrounding my name, address, and past be the reason you sit there a few years from now and realize you had the chance to stop it all, only for it to be too late by then. HELP me RUIN it!

Now, if you do that, then while the outfitting and supply stocking for Mission One was going on, I would be simultaneously working with specific software and tech companies to bring into fruition the "V.R.E." (Virtual Reality Experience) I've created. I won't go into specifics, but it's basically an artificial parallel universe created and stored in a state of the art "super computer" (similar to, but better than, the 96 cabinet/300terabyte one shared between Sandia Base and Los Alamos National Laboratories) housing hundreds of millions of planets, trillions of artificial lifeforms, all living their own lives, programmed with an algorithm that **NEVER** allows them to be ABLE to realize they are artificial. Then we as Human users utilize a "drop in/drop out" format virtually. It would take an hours long presentation to really explain the details of the VRE itself, the "Big 3 Rig" used with it, and all the accessories, as well as how to create so much so fast and store all of it using a combination of cloud and quartz crystal storage. Trust me when I tell you; This VRE will also change the landscape of our everyday lives and solve issues too. I won't get into the VRE's specifics, or what is included, but I've 100% completed it and memorized it. To manifest it and bring it online for everyone, it will take approx... 14-22 months, running parallel, so it's ready before deployment of Mission One. The main system will remain here on Earth, while the Flagship has a mobile/interchangeable system installed. Each "Living Pod" upon the Flagship will be outfitted with system installed. Each "Living Pod" upon the Flagship will be outfitted with the VRE's Big 3 Rig, that also dubs as a bed when you are ready to lay down. This will keep the crew stimulated during the long trips between planets, moons, and other destinations, as we set up USSF colonies of American Democracy, and Forward Operating Bases ("FOB's") for the USSF throughout star systems.

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

**OR;** You can let my address and the PAST be the reason why you stick with approx., 97% of NASA not even knowing the truth while they believe that a 30 second drone flight on Mars is a landmark achievement, while spending Trillions on rocket power, rocket fuel, un-needed “research”, and a FAKE space program used to deflect from our REAL one... We’re not the only Country that does this, but that’s not my place at this time. For now, I will leave that up to them and their Citizens. As Commander of the USSF and ALL connected to this subject, I would **THEN** have access to our REAL genetics program whereby the FIRST THING I would do is schedule Genetic Manipulation Surgery for ALL of our VETERANS in the “Wounded Warrior Project”. ALL those who lost limbs fighting for our Country’s freedoms, would have them genetically regrown using REAL technology, not “magic”. Then I would seed and implement G.M. surgery capabilities into hospitals across America with FAIR and EQUAL access region by region, to address lost limbs, most cancers, viruses/disease, burn victim skin graft corrections, organ transplants, AND MORE!

**OR;** You can let the fact I have a criminal past, that is IN THE PAST, be the reason why you stick with telling our Veterans: “Thank you for your service and your sacrifice, I wish there was more we could do”. While **CHOOSING** to let them suffer... Letting our American Citizens suffer and die while waiting on a donor match, by the hundreds of thousands. Letting our People suffer and die from ALL types of cancers and debilitating diseases/viruses, instead of only a few unfortunate exceptions that still don’t make it. I would ALSO implement Special Emergency Response Teams within the Domestic Division of the Philanthropy Unit of the USSF to assist in extreme circumstances of disaster relief, like the tragic Surfside collapse, and/or anywhere else heavy debris needed removed IMMEDIATELY, and/or any form of relief where our technological advancements could be used to save the lives of our Citizens. Eventually I would also create a second group of teams to assist internationally, but only once we got our own house in order first. We can’t be expected to help others until we help ourselves. This second grouping would be the “Foreign Division” to assist internationally with disasters like that mudslide that happened in Japan, the flooding that took place in Germany and Belgium, Monsoon/Typhoon relief, etc. just to name a few examples, while encouraging other Nations that also have these types of technologies to follow suit. Leading by example.

**OR;** You can let the fact that I don’t come the “traditional” route for what you would normally accept precedent for appointment, be the reason why you continue to LET these families suffer... To let our courageous Citizens who cling to life and hope; eventually die after suffering under rubble as they thought someone would save them, but never came, as they waited for help, we COULD have provided, but didn’t. Having family after family suffering loss after loss because the **CHOICE** was made to **LET** them, because “**It’s Not Time Yet**” ... Don’t hold it against me for pointing out what is true, change what that truth happens to be moving forward, and there would be no tragic truth

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

in the shadows for me to shine light on. PERIOD. Facts are Facts. I can no longer sit by and KNOW what I KNOW, while I watch millions of our people suffer and/or die at the hands of their own Government's CHOICE to not use what we ACTUALLY have, and have perfected, to save them. The immature young me would just absorb the truth I was being exposed to, but couldn't look passed his Friday nights as he ran the streets, cheated in his relationships, and only cared about his own self-gratifications. The more mature, yet still younger me, was bothered by all this while continuing to learn more Classified facts, but thought he was too small and insignificant to DO anything about it, even though he had grown into a more honest and faithful person who cared more about others than he had before, after overcoming some of his own faults and insecurities. **But** the evolved me, who really knows himself, who no one really KNOWS anymore where I'm from originally, Who is honest and dependable to a fault, secure in myself and focused; **THAT** is the person authoring this Whistleblower document, briefing you on the truth you have never even considered, and pouring my heart out for the People... And **THAT** person, me; I am flat-out offended as an American Citizen. And as an innocent man who was kidnapped by the same law I was actually abiding by, and held against my will for over a decade now; I **STILL** believe in our Country, but we CAN'T let ANYONE already involved or that would still secretly answer to MJ-12, be the one/ones making these decisions anymore with THIS subject, and thereby volunteer my services, my POA for the USSF/SFI, and my rollout plan for all the technology I've disclosed, my VRE, truthful declassifications, and to SHOW us all a better path forward. Tens of millions of American lives have already been sacrificed to keep this information secret by those who you have been relying on already to make the right choices with this subject. What do you have to lose by at least SEEING what I can do? I implore ALL of you to put your Partisan viewpoints and loyalties aside for this ONE subject and the ONE person contacting you about it. Conduct an emergency convening and get this done. That's all I ask. Without you and the Media outlets taking this serious and doing anything about this; The American People (as well as the rest of the Planet) will continue to suffer and be lied to. You can finally DO something for ALL of HUMANITY! I have given you MORE than enough details to verify what I'm telling you to be FACTS. And to be honest; There is WAY MORE. Once my initial POA is implemented, THEN I will elaborate on our species' history and prehistory, "our" Planet's prehistory, other ETE's involved, AND what I know about the "Creator of All Things".

Now, I have to be realistic and point out that politics and Civilians both have contributed to certain supply and demand precedents that will unfortunately still have to be satisfied, otherwise those that would stand to lose trillions in profit moving forward, would purposely try to block me from doing this. Because of this, certain pivots that exist within my POA call for those existing "profiteers" to still be utilized; using existing infrastructure to distribute and implement moving forward, which ALSO will preserve familiarity between The People and the new products/technologies they are just now distributing a MUCH better product while ALSO keeping it affordable.

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

Another thing that is VERY important and part of my very detailed POA is Civilian Space Travel, but at affordable rates. One of the excuses not to make G.M. surgery available to the Public is; because by increasing health and wellness in such massive volumes, it also extends lifespans, and that's without even talking about targeting THAT specific frequency yet. The point is: without immediately becoming a space faring society, residing on multiple Planets (not just small groups in secret), we mathematically will over run this Planet. Keep in mind though; with now being a society that goes even faster WITHOUT fuel, and uses energy that already exists everywhere in the Universe, we won't have to worry about destroying other planets with pollution and carbon emissions. Therefore, we CAN spread out, we CAN use G.M. surgery to eliminate most ailments, and **THAT'S** why Civilian Space Travel is so important, and such an essential part of my POA moving forward, and why Mission One is so paramount. I will now explain the Civilian Space Travel rollout in more detail: On July 11<sup>th</sup> 2021, we witnessed "Virgin Galactic" use their design for implementing rocket technology into civilian space travel for millions of dollars to spend a minute or two on the edge of the atmosphere and have just recently (2023) begun tourism trips. On Tuesday, July 20<sup>th</sup> 2021, we witnessed "Blue Origin" use their own design of the same rocket technology as well, to do the same. "Space X" has showed us for years their designs, also being rocket based. The first two only enter the edge of the Earth's atmosphere for a few minutes and then either fall or glide back to Earth. Space X puts civilians in orbit, is eyeing a mission to Mars, and is a bit more ambitious, however still not being able to use the technologies TRULY required to reach their goals NOW. These three companies are referred to in my POA as "The Big Three" (not to be confused with my VRE's "big 3 rig"). In that section, it calls for USSF/SFI to seed AND assist The Big Three with anti-gravity repulsion technology craft, and EVENTUALLY charged Dark Matter deep space propulsions to access APPROVED wormholes and specific destinations. If I were ANY of these billionaires spending all this money on ARCHAIC rocket technology while my government pats me on the back and gives me even more money to "keep it up", I would be infuriated by the blatant patronizing encouragement my government is giving me while smiling to my face and laughing behind my back. If this subject and everything connected to it, was under my authority, my plans include regulating the technologies, vessel designs, and infusing temporary personnel into the Big Three. ALL THREE would have their own WORKING craft, choosing from the main four designs I would make available, in less than 18 months from the day I was sworn in. I'm talking about craft capable of speeds up to 216,000 miles and hour just when "repelling" off of Earth like Gravity levels, and that's not even including the propulsion systems. Space X could have 5-10 craft going back and forth from Mars so regularly that they could make DAILY trips if they wanted to. Taking supplies to build a colony. To be frank though; once they arrive on Mars, they will experience much different conditions than that of which has been taught to us all in school, but that would be included in my Declassification process that would have taken place by then anyway. Not something I will get into right now. All

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

three CEOs would be given the opportunity to accompany me and USSF/USAF personnel into space on similar craft within my first week, so they could SEE their selves; how much easier, quicker, cleaner, and SAFER everything truly is. The difference being: A few minutes of weightlessness on the edge of Earth's atmosphere and close Earth's orbits, hoping the rocket you're riding doesn't explode, while not having gravity and then falling or gliding back down to Earth. As opposed to; having actual gravity the whole time, choosing a destination approved of by my POA's "Directives Section", and having Civilian Space Travel be EXACTLY THAT: "SPACE TRAVEL". From land to space in seconds, without ANY fuel that could ignite and kill everyone or destroy the craft's capabilities. From space back to land in seconds, or any other LZ (landing zone), without any G-Forces felt/existing, and just stepping out. And without any rocket fuel cost or other protocols paid for to respond in the case of an exploding rocket; the voyage price will be able to be affordable, with REAL options to live, or move to, or work off planet for the "average Jane or Jo". As another part of my POA, certain Big Three personnel will participate in Mission One, using vessels we've provided and outfitted for them, that will be housed on our Flagship's Hanger Level. These craft and personnel will be used DURING the mission to take our Civilians to/from the Flagship and approved areas, and then USSF/SFI Colonies/FOBs, as well as help construct them during the mission. Once our first USSF colony is established, the Big Three will then be tasked with transporting our civilians back and forth to/from Earth, the Colony, and Flagship as the mission progress. THAT'S the "Phase Two" section of the POA to do with Civilian Space Travel as we incorporate the deep space propulsions and approved wormhole travel in the Big Three for Civilian use, only about 25% of the way into Mission One. There are a lot of details and regulations. Here is just an example: Preventing the Big Three from participating in anti-gravity Repulsion commercial Airline travel, with the exception of Virgin due to them already operating Virgin Airlines. That way by them having the tech for space travel doesn't interfere with the existing infrastructure, therefore stabilizing the technological roll out. Just like preventing the Big Three from participating in the use of the Particle Vacuum Enhanced Energy systems to power electric vehicles. But again, with exception of Space X due to them already operating Tesla. So forth and so on down the line of the supply chain. Many more details I will explain as part of my POA if given the opportunity to implement it, but as I already stated; NO ONE already appointed or that would be appointed from within, can be trusted with all those details because it will ALWAYS be something it shouldn't be, or a deceptive version of it motivated by greed, politics, and/or loyalty to predecessors, or someone other than WE THE PEOPLE. The amount of detail I have given this and possible contingencies I've planned pivots for, in order to remain on track and true to the American People, cannot be compromised. I'm just not going to break down the entire thing from a prison cell, so I can watch as our REAL solutions are corrupted and our People are further disrespected, neglected, and sacrificed "for the bigger picture". Even HALF of what I've already told you should qualify me, at least, for consideration, let alone ALL I have told you so far.

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

I can address some of our immediate weather-related issues with solutions and also implement long term “fixes” to prevent it from repeating. I can immediately upgrade our energy systems, travel abilities, health/wellness levels, and do it in a way that doesn’t cost the American People more money, but in fact costs them LESS. I can present WAY more options for those American Citizens that feel like they are out of options, and wound so tight they eventually snap. As a bi-product of me making these changes; poverty levels will plummet while equality rises on its own due to Humanity’s TRUTH being explained honestly with the delivery it desperately deserves. One decision would change ALL those things in months, not years or decades. One decision that ALL political parties can be excited for, participate in, and agree on. That’s something I need to address to you too, so allow me to expand upon that: As the elected legislature, your job description is; to represent the opinions of all the American People. That means less than 1000 U.S. citizens have been chosen by the rest, to represent the opinions of about 350 **MILLION** people! Those opinions are supposed to reflect both; the majority of the Citizens in the state you were elected in, AND their best interests. And this majority opinion you get paid to represent, is to ultimately come in the form of a “**Yeah**” or “**Nay**” vote to a yes or no question, bill, proposal, etc.... Yet, this has turned into voting Yeah or Nay to the AFFILIATION OF the co-worker WHO is presenting it, instead of WHAT is actually presented. You literally sit there during every President’s State of The Union speech on opposite sides of a room, and 99% of the time only clap or stand when someone or something of YOUR AFFILIATION is spoken about, while the other refuses, and sits stoned-faced, no matter WHAT is actually being said. Yet, in the same capacity, you sit there and act dumbfounded as to why the American People are so divided as you point the finger at the “opposite” affiliation... We can’t even get mad at the American People, unless someone uses violence to act/react to that division, because actions reflect leadership. Less than 1000 people selected to represent the opinions and best interests of about 350 MILLION... And you can’t even sit together?? I don’t ask why the American People are so divided, I ask why WOULDN’T they be? And now, I sit here with the blueprint and instruction manual on everything concerning the ONLY subject you haven’t divided yourselves, or the American People on. The ONLY true and current Beyond Partisan issue that ALL political parties/affiliations and Citizens can get behind and support. Furthermore; as the ONLY individual that has my FULL collection of facts that is **ALSO** Beyond Partisan, and who won’t go for any of the deceptive tactics/deals that our current T/S:CW-MEO decision makers would/have; who better than me to do it all? Then factor in my very detailed, and vastly effective POA for the USSF and SFI, that is FOR the BENEFIT of the People, and I would be willing to bet just about anything that those 350 Million opinions you are elected to represent would be close to a unanimous consensus of “Yeah/Yes” to whether or not to come get me and swear me in, to get started right away. And EVERYTHING is already in the People’s best interests, so that’s not even a question. The ONLY question that remains is; What are YOU all going to do?

**T/S: CW-MEO**  
**DOCUMENT NUMBER: 021F947T012**

In the event I'm approved and affirmed; understand that existing Commanders, Directors, E.T.O.'s (N.T.O.'s), and other Military and Intelligence leaders already involved wouldn't be fired or replaced unless they defied the change and/or didn't respect the new Chain of Command. They would now just be receiving their orders/protocol updates from ME Only, **BUT** ONLY if it had to do with this exact subject and any/all information, and technology, connected to it. They are going to be needed in leadership roles as part of my POA, using existing infrastructure to implement, like everything else. However, like everything else; it will be coming from ME and MY decisions, whereby avoiding all the loyalty to predecessors, political games, and/or greedy problems that are probable every time a decision is made within the existing compartmentalized circles already involved in this subject.

Now in conclusion; I will do two things: 1) I will use the end of this Document, prior to the proposal, as a vehicle to speak directly to certain circles already involved and/or connected to this information. 2) I will include an Official Proposal as the last pages of this Document, therefore still bearing the Document number, but not the T/S:CW-MEO heading. The American People **DESERVE** a swift and immediate verification of the Classified Information Included in this briefing Document/Proposal, followed by an Unhindered, HONEST vote on this proposal. Thank You for time and efforts moving forward on this matter. Help me Help Humanity...I will now speak directly to those certain circles and individuals.

To those in the DIA, CIA/Group-6, MJ-12 and their "updated" identity, The United States Armed Forces, and "Others" who know that every single syllable within this Document is true: I CAN DO THIS. For those of you who have said privately to one another; "I wish we would just get on with it already and have someone step up", I'm him. I'm it. Please consider my offer, and I am VERY aware of my actions and both the NON-GFL and GFL implications. To the GFL itself; I wish I would have been the one with the authority in 1958 to make better decisions than what were made by those at the time, but even our current "inclusion" the U.S. has could be vastly improved with my appointment. I am respectfully requesting your endorsement to your current relationship with my Government and The United Nations of Earth. To ETE 1-13 that are NON-GFL members; I truly believe I can usher in the types of diplomacy amongst us ALL that has seemed impossible for millennia. All I ask is for the chance to show you. And to the thousands of Earth based T.L.S. Agents; I truly believe I can take us "From Light To Love", under my own free will, I just need your assistance. Please assist me in showing you. And to the C.O.P.; I know you don't involve yourselves much, except Diplomatically. I am respectfully requesting that you do just that now. I ask you for your endorsement. We have the same vision for Humanity's future.

# CONCLUSION

To listen to an audio recording of me explaining HOW I know what I know exactly, go to the website that houses my WHISTLE-BLOWER DOCUMENT and scroll down. You will see an icon that says; "To hear how I know what I know, click here." When you click on it, a blacked-out YouTube screen will pop up to play the audio.

Every single word in this document is FACTS. Every day hundreds of thousands of American citizens suffer and/or die that don't have to, and millions more worldwide. This includes Republicans dying, Democrats dying, Independents dying, etc. We all know someone who has lost someone to sickness, or have lost them ourselves, regardless of political affiliation. The cold hard truth is; since the early 90's they could have been saved, spared, and cured. Think about all the trillions of dollars YOU have approved to be spent on research and development projects to address issues we already had the answers and solutions to for decades... Think about how self sufficient and advanced the American economy would be with this technology. You have been lied to like everyone else! Aren't you tired of it? Don't you want a new and improved life for your children, family, and friends? Let alone yourselves? Of course, you do, so give it to them. It truly is that simple. Here is my website: [www.acclimatenow.com](http://www.acclimatenow.com).

Vote "YEAH" to this proposal and I'll SHOW you! Please do this for ALL of the American People...

Sincerely, Charles

### **-THE "TRUTH DOCUMENT" PROPOSAL CONTINUED-**

connected contracts and/or obligations that do not impede upon, or interfere with, the implementation of new POA for **USSF/SFI**.

-To implement A New **SPACE FORCE INTELLIGENCE**, however; **ONLY** following a briefing I give to Intelligence Committee members, detailing its purposes.

-To obtain **NO LESS** than \$480 Billion in donated funding for **USSF/SFI** during the technological "Seeding" process, while awaiting legislature to pass an Emergency "Kick Start" budget for the **USSF/SFI**.

-As **FLEET ADMIRAL**; To Command the **ENTIRE** Space Force Fleet, as well as; **ALL** U.S. Military and Intelligence Service's Anti-Gravity repulsion craft, and U.S. Starships/Craft/Vessels Etc. capable of deep space propulsions/travel, that are both currently and not currently Commanded/Occupied by **E.T.O./N.T.O.** which stands for: "Extraterrestrial Officers" and "Non-terrestrial Officers", meaning; **ETO** and **NTO** are Military, Intelligence, and/or NASA Officers that operate ships in space/deep space and/or other Planets on behalf of The United States Government, or Private Contractors acting in the Interests of the USG. However, restricted to: **NOT** canceling current Missions/Deployments that do not impede upon the implementation of the new POA for **USSF/SFI** and/or ANY and ALL above listed activities/responsibilities/authority.

-Commanding the day-to-day operations, both ON and OFF-World, described above while having General J. Raymond in a Command capacity as the "Secretary of The Space Force", and member of the Joint Chiefs Of Staff, however also tasked with; operating as my counter-part here on Earth during deep space missions I am deployed with, as Commander on board the Flagship specifically, and there is a temporary communications failure/lapse, until such communication is re-established. However, bound to include a mandatory minimum of ONE Commander from EACH branch of the United States Armed Forces, to be part of every deep space deployment of the **USSF** and/or ANY and ALL deep space deployments that are under my authority as Fleet Admiral.

-To swear an **OATH** to the **CONSTITUTION OF THE UNITED STATES OF AMERICA**, to protect and defend IT and Its **CITIZENS**, both ON and OFF-world, against **ALL ENEMIES**, BOTH **FOREIGN AND DOMESTIC**.

With **RESPECT** and **HONOR**,

CHARLES B. MCNEAL

WHAT SAY YOU?

YEAH OR NAY
